

LMU-DCOM Curricular Outcomes and Summative Assessments
Academic Year 2022-23
APPROVED 08/11/22

To evaluate, document and enhance the program's effectiveness, the LMU-DCOM Assessment Department directs, manages and facilitates a broad range of assessment initiatives. Organized around the seven core osteopathic competencies, data is collected on all program defined student learning outcomes. This chart below outlines the various methodological approaches used to assess each LMU-DCOM program outcome. These plans are continually adjusted and expanded in response to evolving needs and opportunities.

A large number and variety of focused reports are generated using summative assessment data throughout the academic cycle for use by course directors, faculty curriculum committee, rotation chairs, rotation sites, and the Dean and his administrative team. At the end of each academic year, a comprehensive outcome report (see sample at the end of this document) is created by the Assessment Office which aligns summative findings from multiple assessment measures for each program outcome and then compares these findings against established benchmarks. The Program Outcomes Committee reviews this report and makes specific recommendations for any outcome where its benchmark was not met. Finally, the report documents whether the previous year's recommendations were implemented and tracks the results of these changes.

Core Competency	Ref #	Program Outcome	EPA	Courses	IPE	Summative Assessments
#1 Osteopathic Principles and Practice (OPP)	1	Provide osteopathic clinical care that fully considers the body's capacity for self-regulation, self-healing and health maintenance.		<ul style="list-style-type: none"> • MFM II, MPhysio • OPP I, II, III & IV • EPC III & IV • CSW Requirement • All Core, Selective, & most Elective Clinical Rotations 		<ul style="list-style-type: none"> • Multiple-Choice Exams & Quizzes • OPP Lab Practical Exams • SPEs/OSCEs • COMLEX 1 • COMLEX 2 CE • CSW • Clinical Rotations OPP Case Logs • Preceptor Evaluation of Students • Graduation Survey
	2	Apply osteopathic principles regarding the interrelatedness of structure and function in addressing clinical problems.		<ul style="list-style-type: none"> • MGA, MPhysio, MNeuro • CNeuro, MSK, Cardio, Respir, Integ, BehavM • OPP I, II, III & IV • EPC I, II, III & IV • CSW Requirement • All Core, Selective, & most Elective Clinical Rotations 		<ul style="list-style-type: none"> • Multiple-Choice Exams & Quizzes (OPP keyword) • OPP Lab Practical Exams • SPEs/OSCEs • OMS-I Cumulative Exam • COMLEX 1 • COMLEX 2 CE • CSW • Clinical Rotations OPP Case Logs • Preceptor Evaluation of Students
	3	Apply OMM concepts and techniques to assess, diagnose and treat patients.	1	<ul style="list-style-type: none"> • MSK, Cardio, Respir, Integ, BehavM • OPP I, II, III & IV • EPC I, II, III & IV • CSW Requirement • All Core, Selective, & most Elective Clinical Rotations 		<ul style="list-style-type: none"> • Multiple-Choice Exams & Quizzes (OPP keyword) • OPP Lab Practical Exams • SPEs/OSCEs • Simulation Labs • OMS-I Cumulative Exam • COMLEX 1 • COMLEX 2 CE • CSW • Clinical Rotations OPP Case Logs • Preceptor Evaluation of Students • Graduating Student Self-Assessment
