

LINCOLN MEMORIAL UNIVERSITY DEBUSK COLLEGE OF OSTEOPATHIC MEDICINE

**DEPARTMENT OF PHYSICIAN ASSISTANT STUDIES
2018-2019 ACADEMIC YEAR**

STUDENT HANDBOOK AND CATALOG

This handbook is designed to serve as a guide to the rules, policies, and services of the LMU-DCOM PA Program; therefore, it is not intended to establish a contract and the LMU-DCOM PA Program reserves the right to amend, modify, or change regulations, policies, and financial charges stated in the handbook throughout the year. In such a case, the LMU-DCOM PA Program will make reasonable efforts to notify the LMU-DCOM PA Students in a timely manner, of any changes in policies and regulations. Notification shall be made via the LMU-DCOM PA Program website or to University issued e-mail accounts as deemed appropriate.

HERITAGE

Lincoln Memorial University grew out of love and respect for Abraham Lincoln and today honors his name, values, and spirit. As the legend goes, in 1863 Lincoln suggested to General O. O. Howard, a Union Army officer, that when the Civil War ended he hoped General Howard would organize a great university for the people of this area.

EQUAL OPPORTUNITY, AFFIRMATIVE ACTION, AND NONDISCRIMINATION POLICY

Lincoln Memorial University is an Equal Opportunity and Affirmative Action educational institution. In support of its Mission Statement, LMU is committed to equal opportunity in recruitment, admission, and retention for all students and in recruitment, hiring, training, promotion, and retention for all employees. In furtherance of this commitment, Lincoln Memorial University prohibits discrimination on the basis of race, color, ethnicity, religion, sex, national origin, age, ancestry, disability, veteran status, sexual orientation, marital status, parental status, gender, gender identity, gender expression, and genetic information in all University programs and activities. Lincoln Memorial University prohibits retaliation against any individual for 1) filing, or encouraging someone to file, a complaint of discrimination; 2) participating in an investigation of discrimination; or 3) opposing discrimination. "Retaliation" includes any adverse action or act of revenge against an individual for filing or encouraging someone to file a complaint of discrimination, participating in an investigation of discrimination, or opposing discrimination. The Office of Institutional Compliance investigates allegations of prohibited discrimination, harassment, and retaliation involving members of the LMU community.

This policy is widely disseminated in University publications, including the employee handbook and all LMU student catalogs and handbooks. All members of the University community bear responsibility for compliance with this policy. Compliance is monitored and reported annually through the offices of the Vice President for Academic Affairs; the Vice President for Enrollment, Athletics, and Public Relations; the Vice President for Academic and Student Support Service; the Office of Human Resources; and the Institutional Compliance Office.

This policy is in compliance with federal and state law, including the provisions of Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendment of 1972, Sections 503 and 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act (ADA) of 1990, the ADA Amendments Act of 2008, Executive Order 11246, the Vietnam Era Veterans Readjustment Act of 1974 as amended by the Jobs for Veterans Act, the Uniformed Services Employment and Reemployment Rights Act, as amended, the Genetic Information Nondiscrimination Act of 2008, and the Tennessee Human Rights Act.

LMU MISSION AND PURPOSE

Lincoln Memorial University is a values-based learning community dedicated to providing educational experiences in the liberal arts and professional studies. The University strives to give students a foundation for a more productive life by upholding the principle of Abraham Lincoln's life: a dedication to individual liberty, responsibility, and improvement; a respect for citizenship; recognition of the intrinsic value of high moral and ethical standards; and a belief in a personal God.

The University is committed to teaching, research, and service. The University's curriculum and commitment to quality instruction at every level are based on the beliefs that graduates must be able to communicate clearly and effectively in an era of rapidly and continuously expanding communication technology, must have an appreciable depth of learning in a field of knowledge, must appreciate and understand the various ways by which we come to know ourselves and the world around us, and must be able to exercise informed judgments.

The University believes that one of the major cornerstones of meaningful existence is service to humanity. By making educational, service, and research opportunities available to students, Lincoln Memorial University seeks to advance life throughout the Appalachian region and beyond.

Revised July 8, 2015; Approved by Board of Trustees, May 6, 2016

LMU INSTITUTIONAL GOALS

Lincoln Memorial University is a private, independent, non-sectarian University with a clearly defined mission that distinguishes it from other educational institutions. While the University cherishes its heritage and rich traditions, it recognizes that dynamic growth and change are required to meet the needs of today's students. The University has identified the following institutional goals, which are derived from its mission and reflect its vision for the future:

- Make educational opportunities available to all persons without reference to social status. The University seeks to maximize enrollment by strengthening recruitment efforts and increasing student retention through the creation of an academic and social environment that facilitates success and rewards achievement.
- Maintain fiscal integrity in all its activities, programs and operations through concerted efforts to continuously increase its endowment and financial standing.
- Provide quality educational experiences that have their foundation in the liberal arts and professional studies, promote high personal standards and produce graduates with relevant career skills to compete in an ever-changing, increasingly global market.
- Advance the Cumberland Gap and Appalachian region through community service programs in continuing education, leadership development, recreation and the fine and performing arts.
- Serve as a critical educational, cultural, and recreational center for the area, and to develop and maintain facilities, which are safe, accessible, and conducive to the development of body, mind and spirit.
- Attract and retain a diverse and highly qualified faculty and staff, committed to teaching, research and service.
- Commit resources to support the teaching, research, and service role of the Institution.
- Support faculty and staff development programs with priority for allocation of resources determined by institutional needs.
- Increase technology for all educational sites. Specifically, the University seeks to continuously improve its computer and other technological resources for faculty, staff and students.
- Develop and implement academic programs in response to anticipated or demonstrated educational need, and to continuously evaluate and improve the effectiveness of current programs.
- Provide a caring and nurturing environment where students, faculty and staff with varied talents, experiences and aspirations come together to form a diverse community that encourages students to grow intellectually and personally to meet their academic and career goals.
- Provide quality educational opportunities through selected degree programs for students who live or work a significant distance from the Lincoln Memorial University main campus, and for whom other options are not as accessible or satisfactory.

WELCOME TO THE PHYSICIAN ASSISTANT PROGRAM

Welcome to the Physician Assistant Program here at Lincoln Memorial University-DeBusk College of Osteopathic Medicine (LMU-DCOM). The faculty, staff and I are happy to have you here and look forward to working with you over the next several years. I am sure you will find the program both challenging and rewarding as you go through each phase of your training. The faculty and staff are here to help you to take full advantage of the wonderful resources and rich experiences available to you here at LMU-DCOM.

This handbook will give you an overview of the program as well as policies and procedures that require compliance. During orientation, an overview of the handbook will be given, but please take the time to read the handbook and ask any questions you might have regarding its contents. In addition, review the LMU Student Handbook as it also holds information related to your education.

If you have any questions, please feel free to contact your faculty mentor or myself at any time should you have questions or concerns.

On behalf of the PA Program faculty and staff, best wishes in your academic career here at LMU-DCOM!

Professionally,

Rex L. Hobbs, MPAS, PA-C, DFAAPA
Assistant Dean & Program Director
Physician Assistant Program
LMU-DCOM

ACCREDITATION

University Regional Accreditation

Lincoln Memorial University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate, baccalaureate, masters, specialist, and doctorate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Lincoln Memorial University.

Professional Accreditation

The Accreditation Review Commission on Education for the Physician Assistant (ARC-PA) has granted **Accreditation-Continued** to the Lincoln Memorial University-DeBusk College of Osteopathic Medicine Physician Assistant Program (LMU-DCOM PA Program) sponsored by Lincoln Memorial University. Accreditation-Continued is an accreditation status granted when a currently accredited program is in compliance with the ARC-PA *Standards*. Accreditation-Continued remains in effect until the program closes or withdraws from the accreditation process or until accreditation is withdrawn by the ARC-PA for failure to comply with the ARC-PA *Standards*. The approximate date for the next comprehensive review of the LMU-DCOM PA Program by the ARC-PA will be **March 2025**.

The ARC-PA Standards are available at: <http://www.arc-pa.org/accreditation/standards-of-accreditation/> . Or at: Accreditation Review Commission on Education for the Physician Assistant, Inc., 12000 Findley Road, Suite 150, Johns Creek, Georgia 30097, &(770)476-1224.

Accreditation Grievances

Any student wishing to file a complaint related to the accreditation standards and procedures should make these complaints in writing to the LMU-DCOM PA Program Director who will forward the complaint to the Dean of DCOM.

LMU-DCOM PA PROGRAM MISSION STATEMENT

The LMU-DCOM PA Program's mission is to educate future Physician Assistants to provide quality healthcare with an emphasis in primary care to the medically underserved of Appalachia and beyond.

LMU-DCOM PA PROGRAM GOALS

1. Professionalism: Create an atmosphere where integrity is valued and professionalism is expected.
2. Leadership: Engage students in opportunities to act as advocates and leaders within the PA profession.
3. Technology: Incorporate a technologically enhanced learning environment.
4. Critical Thinking: Promote early and ongoing clinical decision-making skills through various learning experiences.
5. Multidisciplinary Education: Utilize a strong eclectic blend of instructive techniques to enhance all learning styles.
6. Experienced Faculty: Employ faculty who have diverse clinical and educational backgrounds.

ADMINISTRATION, FACULTY, AND STAFF

LMU Administration

Clayton Hess, Ph.D. – President of the University
Amiel Jarstfer, Ph.D. – Vice President for Academic Affairs
Cynthia Whitt, M.Ed. – Vice President for University Advancement

DCOM Administration

Brian Kessler, D.O. – Vice President and Dean
Michael Wieting, D.O. – Senior Associate Dean
Clarence Colle, Ph.D. – Associate Dean of Preclinical Academic Affairs and Basic Medical Sciences
JooHee Kim, M.P.H. – Chief Operating Officer
Jonathan Leo, Ph.D. – Executive Vice Dean of Academic Affairs and Associate Dean of Students
Christopher Loyke, D.O. – Assistant Dean of Clinical Medicine and Associate Professor of Family Medicine
Sherry Jimenez, Ed.D. – Associate Dean for Assessment and Interprofessional Education (IPE)

PA Program Administration, Faculty, and Staff

Rex Hobbs, MPAS, PA-C, DFAAPA – Assistant Dean and PA Program Director, Full Professor
Howard Teitelbaum, D.O., Ph.D., M.P.H. – Interim Medical Director
Stephanie Hull, EdS, MS, PA-C – Associate Program Director, Associate Professor
Stephen Noe, MPAS, PA-C – Director of Didactic Education, Assistant Professor
Paula Miksa, EdS, MHS, PA-C – Director of Clinical Education, Associate Professor

Anita Airee, PharmD – Assistant Professor
Shane Apperley, MS, PA-R – Assistant Professor
Mary Beth Babos, PharmD – Associate Professor
Melissa Day, MPAS, PA-C – Assistant Professor
John Gassler, PT, DPT, GCS – Associate Professor
Jennifer Harrington, MHS, PA-C – Assistant Professor
Michelle Heinan, EdD, PA-C – Associate Professor
Rachelle Kuhn, MPH – Assistant Professor
Mark Moran, MPAS, PA-C – Associate Professor
Syed Quadri, Ph.D. – Assistant Professor
Chrystyna Senkel, MPAS, PA-C – Associate Professor
Joshua Shepherd, MMS, PA-C – Assistant Professor
Tonya Skidmore, MMS, PA-C – Assistant Professor
Michael Stephens, MMS, PA-C – Assistant Professor
George Thompson, MMS, PA-C – Assistant Professor
Kali Weaver, PharmD – Assistant Professor

Theresa Brooks – Program Administrative Coordinator
Olivia Marcum – Administrative Assistant, Didactic Education

Norma Wells – Admissions Coordinator
Monica Eldridge – Associate Admissions Coordinator

Jennifer Hunley – Rotations Coordinator
Katherine Colson – Hospital Relations Coordinator
Mary Mason – Preceptor Relations Coordinator
Mitchell Calvin – Assistant Clinical Coordinator

Patricia Peace – Director of Financial Services (LMU-DCOM)
Jonah Scent – Financial Aid Officer (LMU-DCOM PA Program)

Justina Hyfantis – Director of Academic Support (LMU-DCOM)
Jason Kishpaugh – Director of Counseling (Student Services/Development)

Helen Bailey – Registrar

SECTION II: LMU-DCOM PA STUDENT POLICIES AND PROCEDURES

TECHNICAL STANDARDS AND COMPETENCIES

Technical Standards for Admission and Retention

The LMU-DCOM PA Program seeks candidates who will be able to serve the needs of society by becoming skilled and effective Physician Assistants. To that end, the LMU-DCOM PA Program requires candidates for admission and continuing students to meet certain technical standards. These technical standards ensure that graduates of the LMU-DCOM PA Program possess a level of cognitive and technical skill necessary to achieve the levels of competency stipulated for graduates of the LMU-DCOM PA Program by the faculty, accreditation agencies, and the standards of Physician Assistant practice. The technical standards go beyond the curriculum's academic criteria and apply both to candidates for admission and continuing students. In order to acquire the knowledge and skills to function in a broad variety of clinical situations and to render a wide spectrum of patient care, candidates for admission and continuing students in the LMU-DCOM PA Program must meet the established technical requirements in the following six areas: General Health; Observation and Visual Integration; Communication; Motor and Sensory; Intellectual, Conceptual, Integrative and Quantitative Abilities; Behavioral and Social Attributes.

1. **General Health:** Students must be able to work long hours in both the classroom and clinical settings with exposure to various body fluids, communicable diseases, radiation, and toxic substances. Students must maintain a general state of physical and mental health necessary to operate under the typical demands and performance requirements of the program and the PA profession. This includes standard preventative health measures such as annual immunizations. The LMU-DCOM PA Program requires all students enrolled in the program to maintain health insurance coverage from matriculation through graduation. Please see *Section III; Admissions Policies and Procedures* of this handbook.
2. **Motor and Sensory:** The provision of patient care often requires upright posture with sufficient total body strength, mobility, and cardiovascular endurance. Students must be able to tolerate physically taxing workloads and be able to sit, stand, and walk for long periods in both the classroom and clinical settings. Students must have adequate gross and fine motor function and coordination (including hand-eye coordination and manual dexterity) to elicit information from patients via auscultation, palpation, and percussion and to use appropriate diagnostic techniques and instruments to complete movements made to provide routine and emergent medical care, and to perform common diagnostic procedures. Examples include, but are not limited to, the following: assisting patients in range of motion, performance of cardiopulmonary resuscitation, administration of intravenous medications, suturing of simple and complex wounds, routine obstetric and gynecologic care, and assisting in surgical procedures. Students must be able to observe demonstrations, visual presentations, lectures, laboratory studies and microbiological specimens, and experiments in medical and clinical settings. Students must also possess adequate sensory skills, including normal or corrected to normal visual and hearing acuity, visual integration, olfactory, tactile, and proprioceptive capabilities to provide patient care. Examples include, but are not limited to, observation of patients close at hand and at a distance and evaluation of symmetry and asymmetry, range of motion, and tissue texture changes.
3. **Communication:** Students must be able to speak, hear, and observe patients to gather pertinent data, describe their observations (including activity and function, mood, and posture) and be able to perceive nonverbal communications. Students must be able to effectively, efficiently, and with sensitivity, communicate in English with patients, families, and colleagues, from different social and cultural backgrounds, orally and in writing, with clarity and accuracy. Students must be able to communicate effectively with students, instructors, clinicians, and patients in oral and written formats.
4. **Intellectual, Conceptual, Integrative and Quantitative Abilities:** Students must exhibit skills in problem solving, critical thinking, measurement, calculation, comprehension of three dimensional relationships and structural spatial relationships consistent with medical practice. Students must be able to comprehend, retain, analyze and integrate a large amount of information related to medicine and process this information in an efficient and effective manner that allows for timely and appropriate patient care. Students must be able to engage in long hours of study; self-identify areas of weakness and utilize appropriate resources for remediation of deficits; and self-reflect and process constructive feedback for improving knowledge and skills.
5. **Behavioral and Social Attributes:** Students must possess sufficient emotional health to allow them to optimally utilize intellectual, cognitive, and reasoning judgment required of medical professionals and must

be able to quickly complete all duties and responsibilities commensurate with effective diagnosis and treatment of patients of all ages. Students must be able to demonstrate empathy, sensitivity, and the ability to quickly establish rapport with patients from diverse backgrounds with different cultural beliefs and a wide variety of acute and chronic medical and surgical conditions. Students must be able to exhibit adequate interpersonal communication skills, compassion, concern for others, honesty, and integrity. Students must be able to tolerate physically demanding workloads (which may involve nights and weekends), noisy environments, long hours, and to maintain composure with emotional stability in challenging, stressful, and changing circumstances and to deal effectively with uncertain and possibly emotionally charged situations. Students must be able to accept constructive criticism and respond via appropriate behavior modification.

Competencies for the Physician Assistant Profession

Taken from the Accreditation Standards for Physician Assistant Education (3rd edition).

Physician Assistants are academically and clinically prepared to provide health care services with the direction and responsible supervision of a doctor of medicine or osteopathy. The physician-PA team relationship is fundamental to the PA profession and enhances the delivery of high quality health care. Within the physician-PA relationship, PAs make clinical decisions and provide a broad range of diagnostic, therapeutic, preventive and health maintenance services. The clinical role of PAs includes primary and specialty care in medical and surgical practice settings. PA practice is centered on patient care and may include educational, research and administrative activities.

Competencies for the Physician Assistant Profession

(Originally adopted 2005; revised 2012)

Access the complete document the following link: <https://prodcmstoragesa.blob.core.windows.net/uploads/files/PACompetencies.pdf>

LMU-DCOM PA Program Competencies/Outcomes

Throughout the LMU-DCOM PA Program curriculum students are provided with instructional activities and faculty mentorship for the purpose of developing proficiency in program-specific tasks and functions derived, in part, from the *Competencies for the Physician Assistant Profession* noted above. Performance on objective tests, evaluation by clinical preceptors, and/or direct observation by PA Program faculty will assess verification of knowledge, skill confidence, and competence. At the time of graduation, students will have demonstrated knowledge of and competence in the following program-specific tasks and functions:

Medical Knowledge

- Obtain, perform, and document focused and comprehensive history and physical examinations on adult, geriatric, and pediatric patients
- Identify normal and abnormal findings on history and physical examination of adult, geriatric, and pediatric patients
- Interpret laboratory study results, electrocardiograms, and radiographic images
- Integrate history and physical examination findings with diagnostic study data to formulate appropriate differential diagnoses and appropriate treatment plans
- Effectively communicate, in oral and written formats, patient history, physical examination, differential diagnosis, and proposed treatment plan for adult, geriatric, and pediatric patients
- Demonstrate an ability to develop an appropriate therapeutic plan taking into consideration patient specifics such as socioeconomic factors, therapeutic interventions, indications, contraindications, side effects, and scientific evidence
- Demonstrate an ability to provide health care services especially relating to preventive medicine and health promotion

Patient Care

- Demonstrate an ability to counsel and instruct patients and their families regarding general health issues as well as specific medical conditions
- Demonstrate an ability to provide health care services especially relating to preventive medicine and health promotion
- Demonstrate basic life support, advanced cardiovascular life support, and pediatric advanced life support skills

- Demonstrate an ability and increased willingness to practice medicine in rural settings, especially those in the Appalachian region
- Formulate and communicate a patient education plan/program for patients and/or their families
- Formulate and implement a plan for basic patient/family counseling
- Demonstrate an ability to correctly perform specific minor medical and surgical procedures and utilize aseptic technique

Interpersonal and Communication Skills

- Demonstrate an ability to build and sustain effective relationships with patients, families and colleagues
- Demonstrate appropriate physician assistant/patient relationships in all professional and non-professional situations
- Demonstrate compassionate behavior and good listening skills in controlled and routine clinical situations
- Demonstrate an ability to effectively communicate orally and in writing with patients, families, and other health care professionals
- Demonstrate an ability to collaborate with other health care professionals, including those from other disciplines, to provide patient-centered care

Professionalism

- Demonstrate respect for patients and families in clinical, professional and non-professional situations
- Demonstrate a commitment to advocate for the primacy of patients' welfare and autonomy
- Demonstrate an awareness and understanding of the issues underlying human diversity
- Demonstrate sensitivity and respect regarding differences in patients and colleagues' gender, race, culture, age, socio-economic status, sexual orientation, and physical or mental abilities
- Demonstrate sensitivity

Practice-based Learning and Improvement

- Demonstrate broad awareness of current clinical and scientific research findings
- Demonstrate an understanding of clinical research methods and medical informatics
- Demonstrate an ability to use clinical and scientific research findings to improve patient-care practices and outcomes
- Demonstrate an ability to self-evaluate clinical encounters for the purpose of improving future practice
- Demonstrate an ability to access, evaluate and assimilate current medical, research and technical literature
- Demonstrate an ability to approach patient care in an open-minded and questioning manner
- Compose a publishable medical research paper utilizing commonly accepted standards for medical writing

Systems-based Practice

- Demonstrate knowledge of local, regional and national health care delivery systems and policy and how those systems and policies impact other health professionals and organizations as well as society as a whole
- Demonstrate knowledge of how broader health care systems and societal demands affect health-care practices
- Demonstrate an understanding of how various medical practices and delivery systems differ, especially in relation to their broader costs
- Demonstrate an ability and desire to practice cost-effective health care
- Demonstrate a commitment and ability to help patients receive the best possible care, including assisting them in their interactions with an increasingly complex medical system
- Demonstrate an awareness and understanding of rural health care needs and challenges, especially those existing in the Appalachian region

Procedures

- Demonstrate knowledge of the following procedures on simulation devices and/or human subjects:
 - Arterial puncture
 - Central line placement
 - Interosseous access
 - Needle decompression and chest tube insertion
 - Remove foreign bodies from eyes, ears, nose, and skin

- Demonstrate proficiency in performing the following procedures on simulation devices and/or human subjects:
 - Universal precautions as they pertain to patient care and OSHA requirements
 - Sterile technique
 - Identification of common surgical instruments
 - Surgical scrubbing, gowning, and gloving
 - Ultrasound techniques for trauma evaluation
 - Venipuncture and intravenous catheterization
 - External control of hemorrhage
 - Administration of local anesthesia
 - Laceration repair
 - Wound dressing
 - Abscess incision and drainage
 - Skin lesion biopsy
 - Use of peak flow meter
 - Administration of nebulized medications
 - Administration of supplemental oxygen
 - Bag-Valve-Mask ventilation and endotracheal intubation
 - Spinal stabilization
 - Intra-articular injections
 - Orthopedic splinting
 - Lumbar puncture
 - Ophthalmologic examination with a slit lamp and fluorescein staining
 - Insertion of urinary and nasogastric catheters
 - Collection of vaginal and urethral specimens

ACCESSIBLE EDUCATION SERVICES (formerly Disability Services)

The LMU-DCOM PA Program will attempt, to the best of its ability, to develop mechanisms by which otherwise qualified candidates for admission and continuing students can be accommodated; however, the integrity of the curriculum and the need to provide optimal patient care must be maintained in order to ensure that all parts of the LMU-DCOM PA Program are delivered to all students. The affiliate organizations, such as outpatient clinics and hospital systems, that administer the clinical and practical portion of the LMU-DCOM PA Program curriculum expect students to perform their duties in a timely manner as such ability is a critical and essential part of patient care. Therefore, extra time will generally not be granted to students in clinical scenarios including clinical rotations and the clinical performance examinations. Similarly, the use of trained intermediaries will generally not be approved in clinical situations. The determination regarding whether or not to grant an accommodation will be based on individual circumstances. Policies on requesting accommodations for a disability can be found in the *Lincoln Memorial University, Student Handbook, 2017-2018 Academic Year, Section II: Campus Services; Accessible Education Services (formerly Disability Services)* (<http://www.lmunet.edu/student-life/handbooks>).

STUDENT CODE OF CONDUCT

LMU-DCOM PA Students are expected to maintain high standards of private and public conduct on-campus, off-campus, and at University-sponsored events. Student code of conduct policies found in the *Lincoln Memorial University, Student Handbook, 2017-2018 Academic Year, Section IV: Student Code of Conduct – Academic Policies and Section V: Student Code of Conduct – Nonacademic Policies* (<http://www.lmunet.edu/student-life/handbooks>) also apply to LMU-DCOM PA Students. Violation of these and other generally accepted rules of behavior, whether or not covered by specific regulations, may subject a student to disciplinary action. **Claims of ignorance of acceptable behavior or of enumerated rules and regulations will not be accepted as an excuse for violation.** Students who reside in LMU housing are expected to follow the policies and procedures as outlined in the *Residential Student Handbook, 2017-2018* (<http://www.lmunet.edu/student-life/handbooks>).

Academic Integrity

It is the aim of the faculty of the LMU-DCOM PA Program to foster a spirit of complete honesty and a high standard of integrity. The attempt of any LMU-DCOM PA Program to present as his/her own work that he/she has not honestly performed is regarded by the LMU-DCOM PA Program faculty and administration as a very serious offense and renders the offender liable to severe consequences and possible suspension. Please review the *Lincoln Memorial University, Student Handbook, 2017-2018 Academic Year, Section IV: Student Code of Conduct – Academic Policies; Academic Integrity Policy* (<http://www.lmunet.edu/student-life/handbooks>).

Professionalism

An important aspect of any professional educational curriculum is the development of professional behaviors and role identity. Evidence shows that unprofessional behavior exhibited during training is a predictor of future problems with state regulatory boards and the need for disciplinary actions (Papadakis, Hodgson, Teherani and Kohatsu, 2004). Since such behavior presents a potential danger to the provision of good patient care and issues for the credibility of the profession, professional conduct shares equal importance to content knowledge and manual skills. The LMU-DCOM PA Program considers breaches of professional conduct as important academic deficiencies.

Recognizing the responsibility to develop appropriate professional behaviors, the LMU-DCOM PA Program sets expectations for professional conduct and evaluates students in this sphere to document satisfactory acquisition of these important behaviors. The National Board of Medical Examiners (NBME) has identified behaviors consistent with professionalism. These behaviors are listed below. Each member of the LMU-DCOM PA Program should strive to model these behaviors as a mode to ensure quality patient care and growth of the profession. As a mechanism to assist students in the acquisition of these professional skills a monitoring system has been established to identify unprofessional behaviors in both the Didactic and Clinical Phases of the LMU-DCOM PA Program. Students identified as exhibiting unprofessional behaviors will be mentored by PA Program faculty and/or other professionals as indicated. Students found to be in **violation of the student code of conduct** and other generally accepted rules of behavior, whether or not covered by specific regulations, will be referred to the Student Progress Committee (SPC) with the possibility of being placed on **professional probation** or being **dismissed** from the LMU-DCOM PA Program.

Professional Characteristics

Altruism

- Helps colleagues and team members who are busy
- Takes on extra work to help the team
- Serves as knowledge or skill resource to others
- Advocates for policies, practices and procedures that will benefit patients
- Endures inconvenience to accommodate patient needs

Honor and Integrity

- Admits errors and takes steps to prevent reoccurrence
- Deals with confidential information appropriately
- Does not misuse resources
- Attributes ideas and contributions appropriately for other's work
- Upholds ethical standards in research and scholarly activity
- Requests help when needed
- Assumes personal responsibility for mistakes

Caring and compassion

- Treats the patient as an individual, considers lifestyle, beliefs and support systems
- Shows compassion to patients and maintains appropriate boundaries in professional relationships
- Responds to patients' needs in an appropriate way
- Optimizes patient comfort and privacy when conducting history, physical examination, and procedures

Respect

- Respects institutional staff and representatives; respects faculty and colleagues during teaching sessions
- Adheres to local dress code

- Participates constructively as a team member
- Adheres to institutional and departmental policies and procedures
- Displays compassion and respect for all patients even under difficult circumstances
- Discusses classmates, faculty, preceptors, and patients without inappropriate labels or comments

Responsibility and Accountability

- Presents self in an appropriate manner to patients and colleagues
- Completes assignments and tasks in a timely manner
- Responds promptly when emailed, called, or paged
- Intervenes when unprofessional behavior presents a clear and present danger
- Uses resources effectively
- Responds appropriately to an impaired colleague
- Reacts to other's lapses in conduct and performance
- Makes valuable contributions to class, rounds, and group interactions
- Elicits patients' understanding to ensure accurate communication of information
- Facilitates conflict resolution
- Remains flexible to changing circumstances and unanticipated changes
- Balances responsibilities to the patient and personal needs
- Provides constructive feedback

Excellence

- Has internal focus and direction, sets goals to achieve excellence
- Takes initiative in organizing, participating and collaborating with peer groups and faculty
- Maintains composure under difficult situations
- Inspires confidence in patients by proper preparation for clinical tasks and procedures

*Adapted from Behaviors Reflecting Professionalism National Board of Medical Examiners
<https://www2.nbme.org/APB/Schools/APB/join.asp>*

Confidentiality

LMU-DCOM PA Students will be exposed to private health information during the course of their training. A patient's health information is private and is protected by law. The **Health Insurance Portability and Accountability Act** of 1996 (HIPAA) is a federal law that sets rules about who can look at and receive patient health information. LMU-DCOM PA Students must follow HIPAA regulations at all times. Students will receive HIPAA training at the beginning of the Didactic Phase and again prior to the start of the Clinical Phase. <http://www.hhs.gov/hipaa/for-individuals/index.html>

Students must respect the confidentiality of their classmates and patients (standardized patients, patient models, and patients and their families encountered at clinical sites) **and are not permitted to discuss their classmates or patients by name or with other potentially identifying information outside the academic or clinical setting at any time while enrolled in the LMU-DCOM PA Program and after graduation.** This includes posting such information on social media platforms. Please only use a patient's initials for academic presentations and assignments.

Social Media Policy

The LMU-DCOM PA Program highly values professional and ethical behaviors from all of its students at all times and in all settings. This includes the "persona" put forth by students when engaged in social media platform (e.g. Facebook®, Twitter®, Snapchat®, blogs, etc.) in which they are identified as part of the LMU-DCOM PA Program in any form. Information of any kind placed on these platforms render an individual subject to the judgement of those who have access to the material and, in many cases, anyone whom the information can be shared with. Though these judgements may be positive, uplifting, or humorous, they can also be slanderous, damaging to others, and project an unprofessional image.

Therefore, the LMU-DCOM PA Program holds students, at any stage of their training, to be responsible for abiding by the same rules of ethical and professional conduct in a social media platform as they would in any other classroom, laboratory, and clinical setting as set forth in this handbook. **LMU-DCOM PA Students are not allowed to "friend"**

on any social media platform LMU-DCOM faculty or staff or clinical site preceptors, nurses, medical assistants, other clinical support or office staff while enrolled in the LMU-DCOM PA Program.

Classroom Etiquette

To maintain an environment conducive to learning in the classroom and laboratory, the LMU-DCOM PA Program has established guidelines. Activities that distract from the classroom environment and interfere with the conduct of the educational process are prohibited. Such activities include emailing, instant messaging, cell phone usage or receiving calls when not on silent mode, headsets for music, surfing the internet aside from direction by faculty as part of the conduct of the classroom, bringing animals to class (except for documented service and support animals – please see *Lincoln Memorial University, Student Handbook, 2016-2017 Academic Year, Section II: Requests for Service and Support Animals on Campus*), bringing children in class (except as requested by faculty), conducting conversations outside of class participation and distracting peers or faculty from the conduct of the learning process. To maintain a safe and clean environment, not eating or smoking will be permitted in any classroom or laboratory. Such activities are not consistent with the LMU-DCOM PA Program’s professionalism expectations. Frequent breaks are given during the day. Students are asked to limit their egress and reentry to the classroom by using break time to attend to needed activities. The LMU-DCOM PA Program faculty have the responsibility to maintain the classroom environment and will ask those who engage in distracting activity to leave the room as the rights of all students to concentrate without interruption must be respected.

Dress Code

In keeping with the professional nature of the LMU-DCOM PA Program, all students are expected to dress in an appropriate manner both in the classroom and in the clinical setting. Being neatly dressed and well-groomed exemplifies a professional appearance. The dress code is described as business casual. Business casual can also be described as the attire appropriate for caring for patients.

Each student is required to follow the dress code as outlined below:

CLOTHING SHOULD ALLOW FOR ADEQUATE MOVEMENT DURING PATIENT CARE, AND SHOULD NOT BE TIGHT, SHORT, LOW CUT, OR EXPOSE THE TRUNK WITH MOVEMENT.

CLOTHING SHOULD NOT BE TORN OR RIPPED, AND SHOULD APPEAR WELL KEMPT.

Slacks, Pants, and Suit Pants: Cotton synthetic material pants, wool pants, flannel pants, corduroy pants, dressy capris, and professional looking dress synthetic pants are acceptable. Inappropriate slacks and pants include jeans (regardless of color), pajama jeans, sweatpants, exercise pants, shorts, bib overalls, leggings and any spandex or other form-fitting pants such as people might wear for exercise.

Skirts, Dresses, and Skirted Suits: Casual dresses and skirts (may be split at or below the knee) are acceptable. Dress and skirt length should be at a length at which one can sit comfortably in public. Inappropriate skirts, dresses, and skirted suits include short and tight skirts that ride halfway up the thigh, mini-skirts, sun dresses, beach dresses, and spaghetti-strap dresses.

Shirts, Tops, Blouses, and Jackets: Casual shirts, dress shirts, sweaters, golf-type shirts, and turtlenecks are acceptable. Most suit or sport jackets are also acceptable. Inappropriate shirts, tops, blouses, and jackets include tank tops, midriff tops, halter-tops, tops with bare shoulders, sweatshirts, t-shirts, and potentially offensive words, terms, logos, pictures, cartoons, or slogans.

Shoes and Footwear: Loafers, clogs, boots, flats, dress heels, and leather deck-type shoes are acceptable. Open toed-shoes are acceptable for only the classroom. Athletic or walking shoes are only acceptable during simulation, laboratory sessions, and some clinical rotations. Unacceptable footwear includes flip-flops, thongs, and slippers.

Jewelry, Makeup, Perfume, and Cologne: Watches, wedding bands and/or engagement rings are permissible. Excessive bracelets or necklaces are not permissible. No more than two earrings per ear are permissible. Exaggerated dangling, oversize earrings, large grommets, or colored plugs are not permissible. Piercings of body areas other than the ears or nose should be covered. Classmates, co-workers, and patients may be allergic to chemicals makeup, perfumes, aftershave, and cologne. Use these products with restraint.

Hair and Nails: Hair should be clean and arranged so as not to interfere with providing patient care. Fingernails should be kept trimmed and without nail polish (on clinical sites).

Tattoos: All tattoos should be covered.

Hats and Head Coverings: Hats are not appropriate for inside use. Head covers that are traditionally worn for religious purposes or to honor cultural tradition are allowed.

Nametags and White Laboratory Coats: A nametag that identifies students as an LMU-DCOM PA Student is **mandatory** at all times, and must be worn on either the white laboratory coat or clothes in the classroom and at clinical sites. Please see *Lincoln Memorial University, Student Handbook, 2017-2018 Academic Year, Section II: Campus Services, Safety & Security, Identification Cards*. A **short**, consultant style, white laboratory coat will be worn in simulated patient encounters and at clinical sites.

Proper Identification: LMU-DCOM PA Students must always identify themselves as “physician assistant students” to faculty, staff, clinical site preceptors and staff, and patients and their families. They must **never** present themselves as physicians, residents, medical students, or graduate physician assistants or as current colleagues of clinical preceptors. While in the LMU-DCOM PA program, students may not use previously earned titles (i.e. EMT, RN, Ph.D., etc.) for identification purposes. LMU-DCOM identification badges must be worn at all times while on campus and during clinical experiences. If the clinical site has established policies and practices regarding dress, the clinical site’s policies supersedes those of the LMU-DCOM PA program.

FACULTY, STAFF, PRECEPTORS, AND OTHER CLINICAL SUPERVISORS RESERVE THE RIGHT TO ASK A STUDENT WHO IS NOT APPROPRIATELY DRESSED, INCLUDING PROPER IDENTIFICATION, TO LEAVE THE CLASSROOM, LABORATORY, OR CLINICAL SITE.

CRIMINAL BACKGROUND CHECK, DRUG AND ALCOHOL SCREEN, AND ARREST POLICY

The protection of vulnerable patient populations is of utmost importance to LMU-DCOM PA Program and the clinical sites where students complete the clinical requirements. The LMU-DCOM PA Program must be informed of any violations of the law or school policy in order to take appropriate corrective or punitive action when students are involved in conduct or activities that could tarnish the LMU-DCOM PA Program’s reputation.

All LMU-DCOM Physician Assistant Students shall submit criminal background checks and drug and alcohol screenings as requested by the Program and as required by clinical rotation affiliation agreements.

Students arrested or formally charged with any infraction of the law, other than minor traffic violations, while matriculated as an LMU-DCOM PA student, shall report such violation or charges to the Assistant Dean of the LMU-DCOM PA Program within **two business days of the offense**. Students failing to report an arrest will be subject to immediate dismissal.

Prior to matriculation into the Program, and again before the beginning the Clinical Phase, students will be expected to submit criminal background checks and drug and alcohol screenings. Additional criminal background checks and drug and alcohol screenings may be required during the Clinical Phase for specific clinical rotations per affiliation agreements. Students shall be responsible for paying any and all associated costs of criminal background checks, drug and alcohol screening, and finger printing, including retesting for any reason. Positive findings on a background check will be subject to review by the Assistant Dean of the LMU-DCOM PA Program. The Program reserves the right to prohibit admission or progression in the LMU-DCOM PA Program based on the results of criminal background checks, drug and alcohol screenings, and/or student refusal to submit to criminal background checks and drug and alcohol screenings. Additionally, clinical sites reserve the right to refuse students based on the results of criminal background checks and/or drug and alcohol screenings.

Students with positive findings on pre-matriculation criminal background checks or drug and alcohol screenings will meet with the Assistant Dean of the LMU-DCOM PA Program to determine if matriculation is appropriate. Students

with felony convictions or pending felony charges will not be considered for admission. Students with prior driving while under the influence (DUI) or misdemeanor convictions will be evaluated and advised on a case-by-case basis. Students with new positive findings on criminal background checks or drug and alcohol screenings at any time throughout the program will be subject to the policies as outlined above, and the procedure described below.

- Students arrested for alcohol, illegal prescription drug, or other illegal substance charges will be decelerated at the completion of the current semester pending legal outcomes.
- Students found guilty of alcohol, drug, or other illegal substance charges will be immediately dismissed.
- Students found “not guilty” of alleged charges, or students who plead to lesser (misdemeanor) charges will be allowed to return to the Program barring any additional professional or other outstanding programmatic issues.
- Students decelerated will be expected to seek appropriate medical/behavioral treatment/counseling to determine if future patient safety will be compromised by the student.
- If a student is allowed to progress, the student may be required to continue to seek counseling, treatment, or therapies to ensure the program and public that patient safety will not be compromised by the student’s actions.

Standing within the Program for students arrested for other charges shall be at the discretion of the Assistant Dean of the LMU-DCOM PA Program, the Associate Dean of Students, and/or the Administration of DCOM and LMU, and shall be based on current policies or precedence.

The program reserves the right to immediately dismiss any student that it determines to betray the values and integrity of the University, community, and the PA profession.

The program advises all students that graduation from the LMU-DCOM PA program does not guarantee state licensure or hospital credentialing can be obtained, especially if the student has any findings on a criminal background check or drug screen.

Deceleration is defined as an immediate discontinuation of the program for a defined length of time, with the student eligible to return with a prescribed programmatic plan.

Dismissal is defined as immediate discontinuation of the program without the eligibility to return.

Students under the age of 21 years may not possess, consume, sell, distribute or be in the presence of alcoholic beverages on campus grounds, in University facilities or at University activities. *Please see the **Residential Life Handbook, 2017-2018, Section IV: Residential Policies; Alcohol*** (<https://www.lmunet.edu/student-life/handbooks>).

The student code of conduct/academic/non-academic policies found in the *Lincoln Memorial University, Student Handbook, 2017-2018 Academic Year, Section IV: Student Code of Conduct – Academic Policies and Section V: Student Code of Conduct – Nonacademic Policies* also apply to LMU-DCOM PA Students (<http://www.lmunet.edu/student-life/handbooks>).

STUDENT MENTORING

Each incoming LMU-DCOM PA Student is assigned a faculty mentor for the didactic phase and a faculty mentor for the clinical phase. These mentors are the key support and primary contact during the LMU-DCOM PA Program. Faculty mentors will:

- Assist students’ understanding of policies and practices of the LMU-DCOM PA Program
- Respond to questions or concerns about course requirements and expectations, performance criteria, academic standing, and professionalism
- Provide feedback to students on their progress in course requirements, faculty expectations, graduate competencies, and program goals
- Provide support for students’ personal and professional growth (can include referral to appropriate professionals should difficult situations arise)

- Discuss academic performance in an effort to optimize students' learning experiences
- Assist students with plans to address issues of academic difficulties on an as needed basis
- Mentor students' progress for Capstone portfolio and similar projects

Students are expected to meet with their assigned faculty mentors **at least once every semester**. Students should also meet with their assigned faculty mentor, course director, and/or the Director of Didactic Education **following any examination or assignment failure** for feedback on performance and preparation for future assessments. Each session should be scheduled directly with the faculty mentor. Please note that at **NO TIME** may LMU-DCOM PA faculty act as the medical provider or behavioral medicine counselor of an LMU-DCOM PA Student.

In addition to teaching, LMU-DCOM PA faculty members may have administrative, college, and clinical responsibilities. Time spent with faculty should be for mentoring, counseling, academic questions, or other questions related to policies and procedures of the LMU-DCOM PA Program. LMU-DCOM PA faculty members generally maintain an "open door" policy for student access. Please consult the faculty member you wish to speak with to make an appointment if the meeting will require an extended period of time.

Additionally, each incoming LMU-DCOM PA Student is assigned a student mentor from the class that matriculated the year prior. These student mentors help students navigate through the program from the perspective of an LMU-DCOM PA Student.

DIDACTIC PHASE

Attendance Policy

Attendance at all classes, laboratories, clinical experiences, and events scheduled by the LMU-DCOM PA Program are **mandatory**.

Because illness or attendance to other personal issues may need to occur during class time, each student is allowed **four (4), four-hour blocks** of personal time per semester. These time blocks must be taken as whole blocks, not in partial segments. These time blocks may not be used when a guest lecturer, Objective Structured Clinical Encounter (OSCE), 3-D mannequin simulation, case study, workshop, laboratory session, or examination is scheduled.

Students **MUST** request the use of one of their time block by e-mailing their assigned faculty mentor no less than 24 hours prior to the date/time they want to use the block of time. The faculty mentor will review the student's time log for that semester and update the record accordingly.

The student is responsible for all material that was provided/covered during the times they have elected to be absent. No special sessions or reviews will be provided.

Students must swipe their ID badge at the beginning of each new class. The timing should be no more than 10 minutes before or after the start of class.

Students found to be absent without notifying their faculty mentor will be considered unexcused and may be referred to the Student Progress Committee (SPC) for breach of professional conduct. This includes students who swipe their ID badge and then move to a study room (or other area) for the class period. Students who swipe the ID badge of a student who is not in class with the intent to make it appear that that student is in class will also be referred to the SPC for fraudulent behavior.

Students using more than the allotted absences may be referred to the SPC. Students with extenuating circumstances that are likely to result in the request of more time off than allotted per semester **MUST** report such issues as early as possible to their faculty mentor. Such situations will be evaluated on a case-by-case basis.

Missing an examination is not consistent with the LMU-DCOM PA Program's professionalism expectations. If a student is unable to attend a scheduled examination for any of the approved reasons listed below, they **MUST** notify the Director of Didactic Education as soon as possible by e-mail or phone. Any student missing an examination for

illness will be required to provide a note from their medical provider upon return. Re-scheduling for an examination can be accommodated under the following extreme circumstances:

- A personal illness with medical attention from a personal health care provider
- Illness of a family member
- Death in the immediate family (spouse/partner, parents, siblings, grandparents, or in-laws)

Performance Assessment

There are many characteristics that are desirable in a Physician Assistant including comprehensive medical knowledge, skill in applying knowledge through the provision of medical care, and professionalism in one's conduct. Medical knowledge is assessed through computerized and written examinations. Skill in applying knowledge through the provision of medical care is assessed through small group activities, laboratory practical evaluations, OSCEs, 3-D mannequin simulation, and clinical procedure simulators. Professionalism is assessed through observation of each student's behaviors during classroom activities, simulated patient encounters, interactions with faculty, staff, and peers, and adherence to the University's and Program's policies as outlined in this handbook.

Testing Procedures

Dishonesty of any kind on examinations, unauthorized possession of examination questions, duplication of examination questions, the use of unauthorized notes during an examination, obtaining information during an examination from another PA student, assisting others to cheat, altering grade records, or illegally entering an office are instances of cheating and are violations of appropriate student conduct and professionalism. Any behavior during the examination process that raises any suspicion that the examination process is compromised will result in all involved students being referred to the SPC with the possibility of dismissal from the LMU-DCOM PA Program.

All personal items (including cell phones and wireless devices) **MUST** be left in the personal student lockers or vehicles prior to entering the examination room. Students are not allowed to wear hats or caps, hooded sweatshirts, or baggy coats into or during the examination.

Drink containers that are clear, unlabeled spill proof containers will be allowed in the examination room. No food/snacks will be allowed in the examination room. Please see *Section IV: Appendices; Exam Instructions and Policies* of this handbook

Students should practice appropriate testing preparation by making restroom stops before entering the examination room. Students should not leave the examination room during the timed portion of the examination except for in cases of urgency. To be excused from the examination, students **MUST** obtain permission from the in room proctor, who will record the time and reason for the student's exit. No extra time will be given to complete the examination due to a rest room break. The student's examination must remain with the proctor until the student returns. Should a student leave an examination and not return, the examination will be forced to submit and will be graded as is.

The LMU-DCOM Assessment Office will notify students of examination start times by e-mail. Seat assignments will be posted on the doors or wall outside the examination room 15 minutes prior to examination preparation time. **Doors will close 5 minutes prior to the "begin" time.** If students arrive after the doors are closed, they will be considered late and not be allowed to enter the examination room. Any student who arrives late for the examination is not allowed in the examination room and **MUST** meet with the Director of Didactic Education immediately. Whether or not a student who arrives late to the examination is allowed to take that examination is up to the discretion of the Director of Didactic Education.

Students will not be allowed to ask the in room proctor any questions during the examination regarding definitions, interpretations, or to clarify statements. Students will be given a pre-determined amount of time per question per semester on the multiple-choice examinations. The time allotted per question will decrease over the didactic semesters to prepare students for the time allotted per question on the Physician Assistant National Certifying Examination (PANCE).

Computerized Examination

Many examinations are administered through the LMU-DCOM Assessment Office via computer software loaded on each student's personal laptop. An examination is considered complete once the student submits the examination voluntarily or the time on the examination expires. It is the student's responsibility to download examinations at the

appropriate time and assure that the software is functioning properly. The LMU-DCOM Assessment Office will notify students when examinations are ready for download. If a student believes his/her examination results were altered by a malfunction of the testing software, he/she must immediately notify the LMU-DCOM Assessment Office and the Director of Didactic Education. That student's examination will be reviewed and any changes made will be at the discretion of the Director of Didactic Education.

Dissemination of Examination Results

Students will be able to view their individualized examination scores on Blackboard. The mean for each examination is not posted. Students will receive feedback in the form of a "Strengths and Opportunities" report for Clinical Medicine I, II, and III examinations. The LMU-DCOM PA Program as an assessment tool, not a learning tool, views examinations. Therefore, students will not be able to view their individual examinations once completed.

Summative Assessment

Prior to the completion of the Summer II semester, a comprehensive 300-question multiple choice summative examination covering concepts learned during the Didactic Phase will be administered. The purpose of this examination is to provide the Program with a measure of each student's base of medical knowledge and preparedness for the Clinical Phase. Students who earn a grade of less than 70% (C) will be required to remediate area(s) of deficit and may be referred to the Student Progress Committee (SPC) for recommendations on progression in the Program.

Policies on requesting accommodations for testing can be found in the *Lincoln Memorial University, Student Handbook, 2017-2018 Academic Year, Section II: Campus Services; Accessible Education Services (formerly Disability Services)* (<http://www.lmunet.edu/student-life/handbooks>).

Requirements for Successful Completion of the Didactic Phase

Successful completion of the Didactic Phase of the LMU-DCOM PA Program requires that students have met all of the following:

- Demonstrated compliance with all policies and procedures published by LMU and the LMU-DCOM PA Program
- Demonstrated compliance with the LMU-DCOM PA Program's professionalism and student code of conduct expectations
- Earned a grade of 70% (C) or higher for all didactic courses
- Passed all practical and written summative examinations
- Achieved minimum competency thresholds in all domains

CLINICAL PHASE

Requirements for Progression into the Clinical Phase

Progression into the Clinical Phase of the LMU-DCOM PA Program requires that students have met all of the following:

- Successfully completed the Didactic Phase
- Maintained a current health insurance policy (Any student who does not maintain a current health insurance policy during the Clinical Phase will be removed from clinical rotations until compliance has been established.)
- Provided proof of up-to-date status of all required immunizations and a negative PPD (or chest radiograph for conversions) (Students who are not up-to-date on immunizations will not be allowed to progress to the Clinical Phase.)
- Maintained a clear criminal background check
- Tested negative on drug screening as required by clinical rotation site(s)
- Provided the Program and clinical team with up-to-date personal and emergency contact information
- Completed any additional clinical rotation site requirements (credentialing process)

Attendance

Attendance at all End-of-Semester (EOS) activities and assigned clinical rotation sites is mandatory. Clinical rotation dates are established by the Program. The schedule for each clinical rotation will be determined by the clinical site preceptor(s). Students are required to work the same schedule as their clinical preceptor(s) with a minimum of 140 hours per 4-week rotation, 280 hours per 8-week rotation, and 120 hours for Behavioral Medicine (PAS 625). Students are required to take call and work nights and weekends as designated by the clinical site preceptor(s). Holidays and University breaks do not apply to the Clinical Phase. Additionally, students are expected to be on time to their clinical rotations. Tardiness is not accepted at clinical rotation sites or when attending End-of-Semester (EOS) activities. Situations in which unexcused absences or tardiness occur will be documented in the student's record. Unexcused absences and/or persistent/excessive tardiness reported to the Program from clinical preceptors will result in a mandatory mentor meeting and may result in referral to the Student Progress Committee (SPC).

Personal days: Students may miss no more than five (5) days during each semester of the Clinical Phase. If a student misses more than two (2) days during a four-week clinical rotation or more than four (4) days during an eight-week clinical rotation, the student may be required to repeat the clinical rotation. Time away from a clinical rotation for activities such as job interviews, weddings, graduations, routine medical or dental appointments, or any other social events or appointments are not considered to be excused absences. Students must submit a completed absence request form and obtain approval for the absence by the clinical preceptor and the Director of Clinical Education prior to the absence. If a student does not follow these steps, the absence will be considered an unexcused absence.

Students will be allowed time off during the Clinical Phase for the purpose of attending a medical conference/certification program. Students may request no more than five (5) days off for this purpose during the Family Medicine (PAS 610) or Internal Medicine (PAS 620) clinical rotations OR no more than three (3) days off for this purpose during the Selective (PAS 665) or Elective (PAS 660) clinical rotations. Time off to attend a medical conference/certification program will not be allowed during any other the other clinical rotations. Students must submit a completed absence request form and obtain approval for the absence from the Director of Clinical Education PRIOR to the absence. Additionally, time away from the clinical rotation should be coordinated with the clinical site preceptor in order to avoid/minimize conflicts with on-call or other clinical duties. If a student does not follow these steps, the absence will be considered an unexcused absence.

If a student is going to be absent for an emergency, the student must notify the preceptor or designee at the clinical rotation site and the Director of Clinical Education by 8:00 am on the day of the absence. Additionally, students must complete an absence form and return it to the Director of Clinical Education within 24 hours of the absence. If a student does not follow these steps, the absence will be considered an unexcused absence.

Severe illness or injury requiring complete bed rest and attendance at funerals of close family members are legitimate reasons for an excused absence. If the student is going to be absent for any of these reasons, the student must notify the preceptor or designee at the clinical rotation site and the Director of Clinical Education. Contact should be made by 8:00 am on the day of the absence. Additionally, students must complete an absence form and return it to the Director of Clinical Education within 24 hours of the absence. Required documentation regarding illness or injury may be required by the Program. If a student does not follow these steps, the absence will be considered an unexcused absence.

Students with absences will be required to make-up the time missed for the clinical rotation. If the missed time is not made up by the completion of the clinical rotation, an "I" (incomplete) will be recorded for the course and completion of the missed time will be scheduled at the discretion of the clinical rotation site and the Director of Clinical Education. Students with unexcused absences and/or persistent/excessive tardiness may be referred to the Student Progress Committee (SPC).

Clinical Rotation Schedule

The Program gives consideration to both the student and the clinical site preceptor(s) when planning and scheduling clinical rotations for the purpose of providing students with an excellent learning experience. Once clinical rotation sites are confirmed, no changes will be made to the schedule unless specific circumstances arise that would necessitate a change. If a change to a clinical rotation assignment is necessary, the clinical team will make all efforts to notify the student as soon as possible to allow sufficient time for the student to make any necessary living/transportation

arrangements in a timely manner. Students are not permitted to attend a clinical rotation site where they have not been assigned by the Program or where appropriate legal agreements are not in place.

Clinical Rotation Sites

The LMU-DCOM PA Program maintains Affiliation Agreements with clinical rotation sites and clinical preceptors throughout the country. Clinical rotation sites are available in the Harrogate area; however, students should also plan to complete clinical rotations at sites distant from the Harrogate campus. Students are responsible for procuring housing and travel to clinical sites. Some clinical sites provide housing at no charge to the student; however, this is very limited and may not always be available.

Throughout the year, the clinical team contacts clinical rotation sites and clinical preceptors to determine their availability for student placement during the Clinical Phase. The Program is committed to maintaining positive relationships with and developing current clinical rotation sites and preceptors as well as developing relationships with new clinical rotation sites and clinical preceptors. Students who know of a health care provider who would like to be a clinical preceptor, should provide the Director of Clinical Education or Clinical Rotations Coordinator with the health care provider's name, business address, and telephone/FAX number(s). The Program will contact the prospective clinical preceptor to determine if the clinical rotation site/preceptor is able to meet LMU-DCOM PA Program requirements to participate as a clinical rotation site/preceptor. A student should not recommend a prospective preceptor if he/she is not willing to precept other LMU-DCOM PA Students in the future.

Affiliation Agreements are legal documents that address issues such as liability and malpractice and formalize the relationship between the Program and University and the clinical rotation site/preceptor. These agreements must be established and approved by the Program and University and the clinical rotation site/preceptor before student placement at a clinical rotation site can occur. Additionally, these agreements help to ensure that LMU-DCOM PA Students will receive a quality clinical experience.

Students may only participate at the clinical site they are assigned to at the designated time. All clinical training sites are sent an Affiliation Agreement that formalizes the relationship between the school and the preceptor/site. It is unacceptable for a student to go to a clinical setting(s) in which they are not assigned and in which there is no affiliation agreement in place. Students are not allowed to negotiate an affiliation agreement with a clinical rotation site. Students may not contact an established clinical rotation site prior to their assignment to that clinical rotation site or unless directed to do so by the Clinical Team. **Students are not permitted to attend a clinical rotation site that does not have a signed Affiliation Agreement with the University.** Any student who is in violation of the Affiliation Agreement policy will be referred to the Student Progress Committee (SPC) with the possibility of immediate dismissal from the Program.

Clinical rotation sites are evaluated by the Program a minimum of every two (2) years by telephone/video conferencing and every four (4) years in person. This provides an opportunity for feedback from the clinical preceptors regarding the clinical rotation experience and individual and aggregate student performance and assessment of the appropriateness and safety of each clinical site. Clinical rotation site visits may occur while an LMU-DCOM PA Student is completing a clinical rotation at the clinical rotation site. Additionally, representatives of the Program may conduct formal evaluations of the student's progress in developing a comprehensive base of medical knowledge and procedural, clinical-decision-making, and interpersonal skills. Formal evaluations by Program representatives will be scheduled with the clinical rotation site/preceptor. Students will be notified via email or telephone if a formal evaluation is needed. Students should respond to communication from the Program within 48 hours of notification so that the clinical site visit arrangements can be confirmed.

Performance Assessment

There are many characteristics that are desirable in a Physician Assistant including comprehensive medical knowledge, skill in applying knowledge through the provision of medical care, and professionalism in one's conduct. A Physician Assistant must possess attention to detail, reliability, punctuality, and the ability to work as a team player with all levels of a given organization including supervisors, peers, and subordinates.

By the second year of study, LMU-DCOM PA students are expected to demonstrate all these traits, and at progressively higher levels as they move towards completion of clinical rotations. Thus, the evaluation of LMU-DCOM PA students includes consideration of medical knowledge, skill, and professionalism. While all of these

factors will be assessed continually, specific forms of evaluation are established to ensure the formal assessment of these traits. Comprehensive medical knowledge is assessed through computerized examinations and case presentations during End-of-Semester (EOS) sessions. Skill is assessed through evaluations by clinical preceptors and LMU-DCOM PA Program faculty. Professionalism is assessed through observation of each student's behaviors during interactions with faculty, staff, and peers, attendance at mandatory activities, completion and timely submission of requested documents (such as patient and procedure logs, hospital credentialing paperwork) to the Clinical Team, participation in medical conferences and group activities, and adherence to the University's and Program's policies as outlined in this handbook.

Students are required to pass each clinical rotation course with a 70% (C) or higher. Clinical rotation course grades include performance on computerized examinations, case presentations and other assignments, clinical preceptor evaluations of the student, end-of-rotation assignments, completion of student evaluations of clinical site/preceptor(s), completion of patient and procedure logs, and evaluation of professional behaviors as outlined above. All assignments and patient and procedure logs must be submitted by the end of each clinical rotation. Failure to meet this requirement is considered an infraction of professional behavior and will result in a grade reduction and possible referral to the Student Progress Committee (SPC) for unprofessional behavior. Specific information regarding a grade reduction or SPC referral can be found in the Clinical Manual.

Testing Procedures

Dishonesty of any kind on examinations, unauthorized possession of examination questions, duplication of examination questions, the use of unauthorized notes during an examination, obtaining information during an examination from another PA student, assisting others to cheat, altering grade records, or illegally entering an office are instances of cheating and are violations of appropriate student conduct and professionalism. Any behavior during the examination process that raises any suspicion that the examination process is compromised will result in all involved students being referred to the SPC with the possibility of dismissal from the LMU-DCOM PA Program.

All personal items (including cell phones and wireless devices) **MUST** be left in the personal student lockers or vehicles prior to entering the examination room. Students are not allowed to wear hats or caps, hooded sweatshirts, or baggy coats into or during the examination.

Drink containers that are clear, unlabeled spill proof containers will be allowed in the examination room. No food/snacks will be allowed in the examination room. . Please see **Section IV: Appendices; Exam Instructions and Policies** of this handbook

Students should practice appropriate testing preparation by making restroom stops before entering the examination room. Students should not leave the examination room during the timed portion of the examination except for in cases of urgency. To be excused from the examination, students **MUST** obtain permission from the in room proctor, who will record the time and reason for the student's exit. No extra time will be given to complete the examination due to a rest room break. The student's examination must remain with the proctor until the student returns. Should a student leave an examination and not return, the examination will be forced to submit and will be graded as is.

The Director of Clinical Education will coordinate testing dates/times/locations with students and proctors. Any student who arrives late for the examination is not allowed in the examination room. Whether or not a student who arrives late to the examination is allowed to take that examination is up to the discretion of the Director of Clinical Education.

Students will not be allowed to ask the in room proctor any questions during the examination regarding definitions, interpretations, or to clarify statements. Students will be given a pre-determined amount of time per question per semester on the multiple-choice examinations.

Computerized Examination

Many examinations are administered via computer software. It is the student's responsibility to download examinations at the appropriate time and assure that the software is functioning properly. If a student believes his/her examination results were altered by a malfunction of the testing software, he/she must immediately notify the Director of Clinical Education. Any changes made will be at the discretion of the Director of Clinical Education.

Dissemination of Examination Results

Students will be able to view their individualized examination scores on Blackboard. The mean for each examination is not posted. Examinations are viewed by the LMU-DCOM PA Program as an assessment tool, not a learning tool. Therefore students will not be able to view their individual examinations once completed.

Policies on requesting accommodations for a disability can be found in the *Lincoln Memorial University, Student Handbook, 2017-2018 Academic Year, Section II: Campus Services; Accessible Education Services (formerly Disability Services)* (<http://www.lmunet.edu/student-life/handbooks>).

End of Semester (EOS) Activities

At the end of each semester of the Clinical Phase, students will be required to return to campus or another designated location(s) for End-of-Semester (EOS) activities. These activities will consist of, but may not be limited to, End-of-Rotation (EOR) written examinations, Objective Structured Clinical Encounters (OSCEs), Case Presentations, PANCE review, lectures on topics relevant to PA practice, and other administrative activities. Attendance is mandatory at all EOS sessions. Requesting to be excused from an EOS session at LMU-DCOM for financial reasons due to travel from an out of state rotation is not acceptable. Personal days cannot be used on EOS days. Any student with an unexcused absence during an EOS session will **lose one letter grade** for each EOR assessment (written examination or case presentation) scheduled on the day the student was absent. Make-up examinations for excused absences are scheduled at the discretion of the Director of Clinical Education and must be completed within one week.

Communication

The LMU-DCOM PA Program makes every attempt to maintain frequent communication with each student and clinical rotation site. Communication between the Program and students during the Clinical Phase may be accomplished via email, telephone, video conferencing, and in-person meetings. Students are encouraged to check their LMU email account twice daily, preferably not during work hours at the clinical rotation site. Students are required to respond to emails from LMU-DCOM PA Program faculty and staff within 48 hours.

If students encounter an academic, professional, or personal concern, that is not a safety issue or emergency, while on clinical rotations, the following guidelines should be followed:

- Attempt to resolve any conflict(s) with the individual(s) directly.
- If this is not possible, discuss the situation with the clinical preceptor or clinical site contact person.
- If this is not possible, contact the Director of Clinical Education ASAP.
- If the Director of Clinical Education is not immediately available, contact the Clinical Rotations Coordinator for assistance.

Personal and Emergency Contact Information

To ensure the safety and security of Clinical Phase students, each student must provide the Director of Clinical Education with current personal contact information during the Clinical Phase. This includes a personal cell phone number and physical address of residence and the name and contact information of an emergency contact person. Students must notify the Program of any changes in personal and emergency contact information as soon as possible.

Health Insurance Coverage

The LMU-DCOM PA Program requires all students enrolled in the program to maintain health insurance coverage from matriculation through graduation.

OSHA Guidelines

Students are responsible for following required universal precaution guidelines at clinical rotation sites. This includes use of personal protective equipment, proper care and disposal of sharps, and other precautionary measures. Students will receive training in standard during the Didactic Phase and again prior to starting the Clinical Phase. Students will be provided with a certificate as proof of training.

Incident Reporting

Should a student sustain a needle stick or sharps injury or exposure to blood borne pathogens or tuberculosis, the student should immediately report the incident to the clinical preceptor and receive appropriate medical care within less than two hours from the time of exposure. The student should contact the Director of Clinical Education as soon

as possible and fill out paperwork as directed. The student is responsible for initiating follow-up care following an exposure at a physician's office or at the University Medical Clinic in Harrogate, TN or New Tazewell, TN.

Liability Insurance Coverage

The LMU-DCOM PA Program provides each student with a \$2M/\$4M malpractice insurance policy. Students will receive a copy of the malpractice insurance certificate to provide to clinical rotation sites/preceptors if necessary.

Summative Assessment

LMU-DCOM PA Students are participants in a professional training program whose graduates assume health care provider positions requiring a high level of responsibility and accountability. LMU-DCOM PA Students will, therefore, be evaluated not only on their academic and clinical performance, but also on their interpersonal skills, reliability, appearance, and professional conduct in addition to medical knowledge, clinical skills, competency, and professional attributes.

Prior to graduation, students will be required to earn a 70% (C) or higher on each component of the summative evaluation. This is a required component of the Capstone Project (PAS 600) course. The purpose of this evaluation is to provide the program with a measure of each student's base of medical knowledge and preparedness for the Physician Assistant National Certifying Examination (PANCE) and clinical practice. This evaluation includes practical evaluations through human or 3-D mannequin patient simulation encounters and documentation and a comprehensive 300-questions multiple choice examination covering the same organ systems and task areas as the PANCE. Students who earn a grade of less than 70% (C) will be required to remediate area(s) of deficit and may be referred to the Student Progress Committee (SPC) for recommendations on progression in the Program.

Requirements for Successful Completion of the Clinical Phase

Successful completion of the Clinical Phase of the LMU-DCOM PA Program requires that students meet all of the following:

- Demonstrated compliance with all policies and procedures published by the LMU and the LMU-DCOM PA Program
- Demonstrated compliance with the LMU-DCOM PA Program's professionalism and student code of conduct expectations
- Earned a grade of 70% (C) or higher for all clinical courses
- Passed all preceptor evaluations
- Passed all practical and written summative examinations
- Achieved minimum competency thresholds in all domains

Please refer to the [Clinical Manual](#) for additional information about policies and procedures specific to the Clinical Phase.

GRADUATION REQUIREMENTS

Academic Progression

Progression in the LMU-DCOM PA Program is contingent upon continued mastery of program objectives, course content, competency minimums, and demonstration of professional behaviors consistent with health care professionals. Students who fail a didactic or clinical course will be placed on academic probation and may be decelerated or dismissed from the Program. Students who fail to meet professionalism expectations will be placed on professional probation or may be dismissed from the program. Please see the Student Progress Committee (SPC) section for further information regarding academic and professional probation.

Requirements for Graduation

Students matriculating into the LMU-DCOM PA Program have a maximum of 54 (fifty-four) months to complete all required components of the curriculum including time for deceleration and leave of absences. Any alterations to the student curriculum must be approved by mechanisms listed in this handbook. LMU-DCOM PA Students recommended for the degree of Master of Medical Science (MMS) in Physician Assistant Studies MUST:

- Successfully complete all components of the program (didactic, clinical, capstone, competency, and summative) AND

- Fulfill all financial obligations to LMU

Credential Awarded

Upon successful completion of the LMU-DCOM PA Program, students will be awarded the degree of Master of Medical Science (MMS) in Physician Assistant Studies from Lincoln Memorial University-DeBusk College of Osteopathic Medicine. The graduate is then eligible to sit for the Physician Assistant National Certifying Examination (PANCE). This examination is administered through the National Commission on Certification of Physician Assistants (NCCPA).

STUDENT PROGRESS COMMITTEE (SPC)

The purpose of the SPC is to ensure that every graduate of the LMU-DCOM PA Program has the medical skills, knowledge and competency as well as the clinical and professional judgment to assume the responsibilities of a Physician Assistant. The SPC will monitor student progress and ensure that all students meet the academic, competency, and professionalism requirements necessary for graduation as outlined in the LMU-DCOM PA Program Student Handbook and Catalog. The SPC, appointed by the PA Program Director, is chaired by the Associate Program Director and composed of PA faculty, the Medical Director of the PA Program, DCOM Basic Science faculty, and the Associate Dean of Students who serves as ex-officio.

At the end of each semester the SPC reviews the academic progress of all LMU-DCOM PA Students. The SPC must approve each student for progression in the LMU-DCOM PA Program. Students who failed a course and/or have not met competency will be invited to meet with the SPC. Additionally, students who fail to meet the professionalism requirements of the LMU-DCOM PA Program will be invited to appear before the SPC at any time during or after a semester. Faculty concerns regarding a student's academic performance and/or professional behavior may be forwarded to the SPC Chair for consideration. Any student who is invited to meet with the SPC is encouraged to meet with their assigned faculty mentor, or a PA faculty member of their choosing, to answer student questions or concerns prior to the SPC meeting.

SPC Procedures

The SPC Chair will set the meeting date and time, provide an agenda to the SPC members, and inform any invited student(s) of the date, time, and location of the meeting and the reason(s) for the meeting by e-mail and standard mail. Students invited to meet with the SPC will be notified at least three business days prior to the meeting. Any student invited to meet with the SPC **will be required to appear in person**. Minutes will be recorded and kept by a recording administrative assistant. Any student invited to meet with the SPC will have the opportunity to answer questions and to submit any information they believe is relevant to their case.

All considered and discussed student cases are submitted to a vote with a simple majority ruling. The SPC Chair will be a non-voting member except in the instance of a tie. Because this is not a criminal court, the level of proof for a decision shall be "substantial evidence" and not the strict criminal law standard of "proof beyond a reasonable doubt." If a student fails to appear before the SPC, the matter will be resolved in his/her absence.

All proceeding are confidential. The SPC meetings are closed to anyone not in the University community. Other than the student, administrative assistant, witnesses as applicable, and the SPC Chair and committee members, no one else will be present at the SPC meeting. The SPC Chair will remind committee members that the meeting is confidential. Following discussion with the student and any applicable witnesses, the SPC Chair will request that everyone except for the SPC members leave the room. The SPC members will deliberate, voice opinions, and a ballot will be taken to make recommendations regarding student progression and/or disciplinary action, up to and including dismissal. A majority vote will rule. Once recommendations have been decided, the student will be asked to return to the room and the SPC Chair will explain the SPC's recommendations to the student. The SPC Chair will notify the PA Program Director of the SPC's recommendations. Additionally the student will receive a letter by e-mail and standard mail outlining the SPC recommendations.

If the student feels that a member of the SPC is biased then the student may request to have this member replaced with a different PA or Basic Science faculty member as appointed by the PA Program Director. The request should be made to the SPC Chair by email at least two days before the scheduled meeting. If one of the regular members of the

SPC cannot attend the meeting then a temporary member (a different PA or Basic Science faculty member) will be appointed for the length of the meeting.

Didactic Course Failures

For one failed course during the didactic phase of the program, the SPC can recommend any of the following:

- Academic probation
- Mentoring by faculty and/or additional resources
- Decelerate the student to the next matriculating class for retake of the failed course and/or audit of other course(s)

For failure of a second didactic course at any time while enrolled in the LMU-DCOM PA Program, the SPC can recommend any of the following:

- Academic probation
- Mentoring by faculty and/or additional resources
- Decelerate to the next matriculating class for retake of the failed course and/or audit of other course(s)
- Dismissal from the LMU-DCOM PA Program.

Failure of a third didactic course at any time while enrolled in LMU-DCOM PA Program will result in dismissal.

Clinical Course Failures

For one failed course during the clinical phase of the program, the SPC can recommend any of the following:

- Academic probation
- Mentoring by faculty and/or additional resources
- Retake of the failed course (the retake cannot replace the Capstone, Selective, or Elective courses)

For failure of a second clinical course at any time while enrolled in the LMU-DCOM PA Program, the SPC can recommend any of the following:

- Academic probation
- Mentoring by faculty and/or additional resources
- Retake of the failed course (the retake cannot replace the Capstone, Selective, or Elective courses)
- Dismissal from the LMU-DCOM PA Program.

Failure of a third clinical course at any time while enrolled in LMU-DCOM PA Program will result in dismissal.

Failure of a total of three courses (didactic, clinical, or both) at any time while enrolled in the LMU-DCOM PA Program will result in dismissal.

Breaches of Professionalism/Student Code of Conduct

Any student who fails to meet the professionalism expectations of the LMU-DCOM PA Program may be referred to the SPC.

For any breach of professionalism/Student Code of Conduct, at any time while enrolled in the LMU-DCOM PA Program, the SPC can recommend any of the following:

- Professional probation
- Mentoring by faculty and/or additional resources
- Dismissal from the LMU-DCOM PA Program.

Probation (Academic/Professional)

Students placed on probation are required to adhere to the following rules in order to be considered for progression in the LMU-DCOM PA Program:

- Students on probation may NOT hold any position in the George Stanley Thompson PA Student Society or attend any local, state, or national professional medical meetings, fundraisers, or club activities.
- Students on probation may NOT complete a clinical rotation outside of the United States.
- Students on probation MUST fulfill the recommendations of the SPC.

The SPC will meet with students placed on probation periodically to evaluate the student's progress in the LMU-DCOM PA Program and compliance with SPC recommendations. The SPC can remove the student from probation if the student has complied with the SPC recommendations and has had no further academic/professional issues.

Deceleration

Students who are decelerated in the didactic phase will not progress to the next semester with their current class. Instead the student will restart the didactic phase of the LMU-DCOM PA Program with the next matriculating class. Students who are decelerated in the clinical phase will have a delay in graduation.

Retake

Retake means that the student will be required to complete and pass a failed course. The maximum grade the student can earn for "retake" of the failed course, examination, or summative assessment is a 70% (C).

Audit

Audit means that the student will be required to complete the course. The grade recorded by the registrar when the student initially completed the course will not be altered.

Dismissal

The LMU-DCOM PA Program reserves the right to **dismiss any LMU-DCOM PA Student at any time while enrolled in the LMU-DCOM PA Program**. Circumstances warranting such action may be of an **academic, professional, or legal nature**. Any student who is dismissed from the LMU-DCOM PA Program by the SPC will be notified by the SPC Chair and will be advised to complete the check-out procedure. The SPC Chair will create a memorandum stating the change in the student's status and notify the appropriate faculty and staff. Failure to complete this check-out procedure will cause the LMU-DCOM PA Program to withhold all records pertaining to the student's attendance. Any student who is dismissed from the LMU-DCOM PA Program will **NOT be eligible** for re-admittance to the program. The check-out procedure is as follows:

- Complete an exit interview with financial aid
- Return their student ID badge and parking sticker to Campus Police and Security

Appeals Process

A student wishing to appeal the SPC's recommendation(s) must submit a letter to the Associate Dean of Students within five business days of receiving notification of the SPC's recommendation(s). The Associate Dean of Students will review the SPC's recommendation(s) and the student's appeal, and, after investigation, determine if the appeal should be forwarded to the Appeals Committee. The SPC's recommendation(s) will remain in effect throughout the appeals process.

Appeals Committee

The Appeals Committee is chaired by the PA Program Director. The committee is comprised of PA and DCOM faculty members, not involved in the original SPC recommendation(s), as appointed by the Associate Dean of Students.

The Appeals Committee will:

- Review the letter of appeal from the student
- Hear the student's appeal in person (if requested)
- Determine if the SPC afforded the student due process based on prescribed procedure and pertinent precedent
- Forward their decision to the Associate Dean of Students within five business days

The Appeals Committee can make the following recommendations:

- Uphold the SPC's recommendation(s)
- Uphold the student's appeal

The Appeals Committee will NOT:

- Meet with or consider testimony from any additional witnesses or representatives for the student
- Entertain any information NOT presented to the SPC

- Entertain any information NOT relevant to the reason for the student being brought before the SPC or the SPC's recommendation(s)
- Amend or alter the original SPC recommendation(s)

If the student's appeal is upheld, the Appeals Committee will return the student to the SPC for reconsideration. If the student wishes to appeal the recommendation(s) of the Appeals Committee, that student may appeal in writing to the Dean of DCOM within five business days of receiving the recommendation(s) of the Appeals Committee. The final decision regarding the recommendation(s) of the Appeals Committee and the student's status is made by the Dean of DCOM who will inform the appealing student.

LEAVE OF ABSENCE / WITHDRAWAL FROM THE PROGRAM

A leave of absence may be granted to an LMU-DCOM PA Student by the PA Program Director for one of the following reasons:

- Medical emergency
- Financial emergency
- Maternity
- Call to active military service
- Pursuit of an academic endeavor other than the established curricular work, either on campus or at another recognized teaching facility
- The discretion of the PA Program Director where appropriate

Only students who are in good standing with the LMU-DCOM PA Program can be granted a leave of absence without condition.

An LMU-DCOM PA Student may be granted a leave of absence in good academic standing if the student has no failures at the time the leave of absence is granted. An LMU-DCOM PA Student may be granted a leave of absence, not in good academic standing, if the student has one or more failures on his/her transcript in any term, including the term in which the request for leave of absence is made. The student must personally discuss the reason for the leave with the PA Program Director. The student must then submit a written request for a leave of absence to the PA Program Director who will then approve or not approve the request. Any student granted a leave of absence in good academic standing will receive a letter from the PA Program Director outlining the requirements for the student's return to the LMU-DCOM PA Program. Any student granted a leave of absence, not in good academic standing **MUST** meet with the SPC before he/she is allowed to return to the LMU-DCOM PA Program. The SPC will decide if the student should be readmitted to continue his/her training in the LMU-DCOM PA Program.

Leave of absences are granted for no more than one year. The official date of the leave of absence will be the date of receipt of the student's written request. Any tuition refunds or outstanding balances will be based on this date. Students who are absent longer than the approved leave of absence duration may have to reapply to or restart the LMU-DCOM PA Program. Students matriculating into the LMU-DCOM PA Program have a maximum of 54 (fifty-four) months to complete all required components of the curriculum including time for recess and leave of absences. Any alterations to the student curriculum must be approved by mechanisms listed in this handbook.

Students seeking to return from a leave of absence must complete all requirements related to the leave of absence and provide notification of completion to the PA Program Director in writing. Students must notify the PA Program Director of their intent to return to the LMU-DCOM PA Program in writing no less than four months before the anticipated date of return.

Students seeking to return from a medical leave of absence must have a licensed physician certify in writing that the student's physical and/or mental health is sufficient to continue their training in a capacity consistent with the technical standards (please see *Section II: LMU-DCOM PA Student Policies and Procedures, Technical Standards and Typical Demands and Performance Requirements*) of the LMU-DCOM PA Program. This letter must be submitted to the PA Program Director.

Students seeking to return from a financial leave of absence must provide the finance office/financial aid office with sufficient documentation to demonstrate their financial capability to advance their education.

Any student voluntarily withdrawing from the LMU-DCOM PA Program must provide the PA Program Director with a letter of resignation. The PA Program Director will create a memorandum stating the change in the student's status and notify the appropriate faculty and staff.

It is imperative that any student who leaves the LMU-DCOM PA Program for any reason goes through the check-out procedure before their dismissal, withdrawal, or leave of absence can be said to be final. Failure to complete this exit procedure will cause the LMU-DCOM PA Program to withhold all records pertaining to the student's attendance. The check-out procedure is as follows:

- Complete an exit interview with financial aid
- Return their student ID badge and parking sticker to security

STUDENT COUNSELING SERVICES

People visit counseling services for many reasons. Some are dealing with a diagnosis of depression, anxiety, bipolar disorder, or post-traumatic stress disorder. Others do not have a mental health diagnosis but have found life is presenting more challenges than they feel they are equipped to handle. Counseling can provide a safe place to discuss issues and identify healthy ways to deal with them. Common reasons to come to a counselor include feelings of sadness that will not go away; feelings of homesickness that are interfering with social interactions or academic performance; roommate issues; dating issues; overwhelming stress and/or anxiety; eating disorders; low self-esteem; parental issues; social anxiety; alcohol/drug related issues; and anger control.

University and Local Counseling Services

Personal and confidential counseling to help students with personal, career, and academic concerns that affect academic success and quality of life is available to students free of charge through the Counseling Services Office. For more information or to schedule an appointment, go to: <https://www.lmunet.edu/student-life/counseling/schedule-an-appointment>. Referral to local counseling and assistance resources is available upon request by the student.

For **emergency services**, students can contact Cherokee Health Systems 24-hours a day for comprehensive and confidential assistance at 423-784-7794 (Clairfield) or 423-626-8271 (New Tazewell).

Distance Counseling Services

Students scheduled for clinical rotations at a distance from campus may utilize the services offered by the Counseling Services Office. To find local mental health services near a clinical rotation site, students are encouraged to go to www.psychologytoday.com.

- Under "Find a Therapist" or "Find a Psychiatrist" enter your zip code and click *search*
- On the left hand side of the screen, narrow your search using a variety of parameters. For example, you can narrow the search by the type of insurance the provider accepts
- Once you find a provider you are interested in, you can contact them directly by phone and/or email with the information provided on their profile page

For assistance in utilizing this resource, or for any other questions, students can contact LMU Counseling Services at 423-869-6401.

For **emergency services**, students can contact the following:

- National Suicide Prevention Helpline:
 - Call: 800-273-8255 (TALK)
 - For deaf & hard of hearing via TTY: 800-799-4889
 - Chat online: <https://suicidepreventionlifeline.org/>
- National Hopeline Network:
 - Call: 800-422-4673 (HOPE)
 - Chat online: <https://hopeline.com/>

- Veterans Crisis Line:
 - Call: 800-273-8255, press 1
 - Chat online: <https://www.veteranscrisisline.net/>

Please note: in the case of a medical or psychological life-threatening emergency, call 911 immediately.

Please see the *Lincoln Memorial University, Student Handbook, 2017-2018 Academic Year, Section II: Campus Services; Counseling Services* (<http://www.lmunet.edu/student-life/handbooks>) and <http://www.lmunet.edu/student-life/counseling>.

FERPA (FAMILY EDUCATION RIGHTS AND PRIVACY ACT)

The LMU-DCOM PA Program complies with the provisions of the Family Education Rights and Privacy Act, 1974, as amended. This law maintains that the program will provide for the confidentiality of student education records (please see the **FERPA form** in the appendix of this handbook). Student grades are recorded, stored and secured with the LMU Registrar. All other student records are maintained by the LMU-DCOM PA Program Office of Admissions. Please see the *Lincoln Memorial University, Student Handbook, 2017-2018 Academic Year, Section II: Campus Services; FERPA (Family Education Rights and Privacy Act)*. (<http://www.lmunet.edu/student-life/handbooks>)

TITLE IX AND SEXUAL HARRASSMENT AND MISCONDUCT

Title IX protects individuals from discrimination based on sex or gender in educational settings (<https://www.lmunet.edu/about-lmu/office-of-institutional-compliance/title-ix-policy-and-procedure>). LMU is committed to upholding the principles of Abraham Lincoln's life: a dedication to individual liberty, responsibility and improvement, a respect for citizenship, and recognition of the intrinsic value of high moral and ethical standards. These principles form the basis for LMU's Sexual Harassment and Misconduct policy and provide the foundation for discipline for violations of this policy. Please see the *Lincoln Memorial University, Student Handbook, 2017-2018 Academic Year, Section II: Campus Services; Title IX*. (<http://www.lmunet.edu/student-life/handbooks>)

SAFETY AND SECURITY

Campus Police and Security is recognized by the State of Tennessee as an independent police agency and is empowered to perform all duties required by law. Campus Police and Security provide police and security personnel for the entire campus in conjunction with LMU standards and policies and the State of Tennessee certification requirements. Campus Police and Security is administered and monitored by the Director of Campus Safety Operations and by the VP of Administration. LMU Police Officers are armed and possess authorization to arrest, restrain, or take into custody a person for violation of federal law, state law, law of Claiborne County or city ordinance. Campus Police and Security have an excellent working and incident-reporting relationship with local authorities, including direct radio and phone contact in the event of an emergency. At least one police officer and one security officer is on duty seven days per week, 24 hours per day to secure campus facilities; protect and assist campus students, personnel, and visitors; and to monitor traffic regulations.

Campus Police and Security is located on the upper concourse of Tex Turner Arena. All students, faculty, staff, and visitors are encouraged to report criminal activity and any other safety concerns. There is also an Anonymous Tip Line at 423-869-7195 or text 50911 then type LMUtip followed by your information (tip line info added). Upon request, reports can be submitted through a voluntary confidential reporting process.

In the event of an emergency or any other security need, call Campus Police and Security at 423-869-6911. Warnings, crime, emergencies, or weather-related incidents particular to the University.

Lincoln Memorial University, Student Handbook, 2017-2018 Academic Year, Section II: Campus Services; Safety & Security (<http://www.lmunet.edu/student-life/handbooks>)

Exposure to Infectious and Environmental Hazards

Learning and practicing medicine involves exposure to infectious agents and other hazards that may cause disease or disability. It is the policy of the of the LMU-DCOM PA Program that all exposures to infectious and environmental hazards are managed according to the Occupational Safety and Health Administration (OSHA) and Centers for Disease Control (CDC) guidelines. **LMU-DCOM PA Students are instructed in the use of standard precautions and other preventable measures to protect against exposure to infectious agents and other hazards prior to engaging in educational activities that would place them at risk. These preventative measures are reviewed with all LMU-DCOM PA Students prior to the start of clinical rotations.** The student is financially responsible for all costs related to acquired disease or disability.

All LMU-DCOM PA Students are required to follow standard precautions at all times which are based on the assumption that all blood, body fluids or other potentially infectious materials, secretions, excretions other than sweat, non-intact skin, and mucous membranes may be infectious. OSHA defines occupational exposure as reasonable anticipated skin, eye, mucous membrane, or parenteral contact with human blood or other potentially infectious materials (OPIM) that may result from the performance of an individual's work duties. An exposure is a percutaneous injury (puncture by needle or sharp object), contact with mucous membrane or non-intact skin contact (especially prolonged contact) involving blood and OPIM.

Personal Responsibility

Health care students and providers have a fundamental responsibility to provide care to all patients assigned to them regardless of diagnosis. Failure to accept responsibility violates a basic tenant of the health care profession to place the patient's interest and welfare first. Attention to immunizations and use of standard precautions and other preventable measures minimizes personal risk. Each student must take personal responsibility for being aware of his/her status and taking proper precautions.

Section IV: Appendix E: Exposure to Infectious and Environmental Hazards of this handbook contains detailed information regarding LMU-DCOM PA Program policies on exposure to infections and environmental hazards.

DR. GEORGE STANLEY THOMPSON PA STUDENT SOCIETY

The Dr. George Stanley Thompson PA Student Society is the Student Government Association (SGA) and the official voice for LMU-DCOM PA Students. The SGA is open to all LMU-DCOM PA Students and welcomes proposals and participation from the entire PA Student body. SGA is responsible for promoting the PA profession; acting as a liaison between the PA Student body and the LMU-DCOM PA Program faculty and staff; working to improve the quality of life for all students; supporting student activities; and dispersing funds for student activities, charitable giving, scholarships, and other areas as appropriate. Student activity fees that are collected are to be used in accordance with University policy. Any funds remaining in the SGA account of a class one year after graduation will be turned over to the next class to be managed by the SGA in accordance with University policy. Elections for the SGA are held each summer shortly after the new class matriculates into the Program. Students may not hold more than one elected position at the same time. The current SGA officers elect the faculty advisor for the SGA for the incoming class. Students serving as SGA officers must be in good standing in the Program. Any SGA officer placed on academic and/or professional probation by the SPC will be required to resign.

STUDENT AMBASSADORS

Student Ambassadors represent the LMU-DCOM PA Program. Their primary role is to assist with student recruitment efforts by providing prospective students with campus tours and relating their experiences as an LMU-DCOM PA students during student interview days, open house events, or other times as requested by the Admissions Coordinator. Students will be sent an application to be a Student Ambassador after completion of the first examination in the Didactic Phase of the Program.

STUDENT CHAPTER OF THE AMERICAN ACADEMY OF PHYSICIAN ASSISTANTS (SAAPA)

Students enrolled in the LMU-DCOM PA Program are eligible for membership and office in the Student Chapter of the American Academy of Physician Assistants (SAAPA). Students may also be elected to the House of Delegates (HOD) and Assembly of Representatives (AOR) in the American Academy of Physician Assistants (AAPA). The

Program supports student members of the SAAPA by allowing student representatives of the HOD and AOR to attend the HOD and AOR proceedings at the AAPA national meeting. (<https://www.aapa.org/about/aapa-governance-leadership/student-academy/>)

TENNESSEE ACADEMY OF PHYSICIAN ASSISTANTS (TAPA)

LMU-DCOM PA Students are encouraged to become a student member of the Tennessee Academy of Physician Assistants (TAPA). TAPA provides students with student-specific programming at conferences, networking opportunities with practicing PAs, professional and career counseling and advice, and a career center with free resume postings. (<http://www.tmpa.com/student-center>)

PHYSICIAN ASSISTANT EDUCATION ASSOCIATION (PAEA)

The Physician Assistant Education Association is a national organization representing Physician Assistant educational programs in the United States. PAEA provides services for faculty at its member programs, as well as to applicants, students, and other stakeholders. PAEA supports two fellowship programs for PA Students, the Student Health Policy Fellowship (<http://paeaonline.org/resources/health-policy-fellowship/>) and the Future Educator Fellowship (<http://paeaonline.org/resources/future-educator-fellowship/>).

Pi Alpha

Pi Alpha is the national Physician Assistant honor society, supported by PAEA, organized for the promotion and recognition of both PA students and graduates. PA Students who have excelled academically and in research, publishing, community and/or professional service, or leadership activities are eligible for nomination for membership. The Program nominates students each year and presents the award(s) at graduation. (<http://paeaonline.org/pi-alpha-honor-society/>)

STUDENT GRIEVANCE POLICY

If a LMU-DCOM PA Student identifies a conflict or problem with a course, the student should do the following:

- First, talk with the course director (listed on the first page of each course syllabus) first. If the concern is not resolved then:
- Talk with the Director of Didactic or Clinical Education as appropriate. If the concern is not resolved then:
- Talk with the PA Program Director.

If a LMU-DCOM PA Student has a grievance concerning another student, the student should do the following:

- First, talk with their assigned faculty mentor. If the concern is not resolved then:
- Talk with the Director of Didactic or Clinical Education as appropriate. If the concern is not resolved then:
- Talk with the PA Program Director. If the concern is not resolved then:
- Talk with the Associate Dean of Students.

All LMU-DCOM PA Student grievances will be responded to as quickly as possible.

SECTION III: LMU-DCOM PA PROGRAM CATALOG

ADMISSIONS POLICIES AND PROCEDURES

Admissions Requirements and Prerequisites

Applicants for admission to the LMU-DCOM PA Program must meet the following requirements:

- **Baccalaureate (Bachelor) degree** earned prior to matriculation from a regionally accredited university or college.
- **Prerequisite courses** completed with a grade of “C” (we do not accept prerequisite courses with a grade of “C-“, “D”, or “F”) or better from a regionally accredited college or university. Science prerequisite courses taken online will not be accepted. Non-science courses, such as English, Psychology, or Medical Terminology, taken online are accepted. The required prerequisite courses are listed in the table on the next page.

<u>Course(s)</u>	<u>Number of courses / semesters</u>	<u>Minimum number of total credit hours</u>	<u>Clarifications</u>
General Biology with Laboratory	Two (2)	8-10	No online courses accepted.
General / Inorganic Chemistry with Laboratory	Two (2)	8-10	No online courses accepted.
Organic Chemistry with Laboratory	Two (2)	8-10	No online courses accepted.
Human Anatomy with Laboratory	One (1)	3-4	No online courses accepted.
Human Physiology	One (1)	3-4	Combined human anatomy and physiology courses should have a minimum of eight (8) credit hours, have taken place over one-two semesters and include a laboratory. No online courses accepted.
Microbiology with Laboratory	One (1)	3-4	No online courses accepted.
Medical Terminology	One (1)	2	May be taken as an online course. Courses that cover all human systems are strongly encouraged.
General Psychology	One (1)	3	Should cover the full spectrum of psychological development from childhood to advanced age.
Psychology Elective	One (1)	3	A course in abnormal psychology is encouraged; however, other courses focused on human cognition and motivation are also acceptable.
Statistics	One (1)	2-3	Courses not listed as a math or science course must have course objectives that show coverage of descriptive and inferential statistics.
Mathematics	One (1)	3	College Algebra or higher.
English	Two (2)	6	A writing intensive course, such as English Composition, is required. However; a literature-based course will be considered for the second course.

- A **cumulative grade point average** (GPA) and **science GPA** of at least 2.8. Competitive applicants will have a cumulative GPA and science GPA of 3.2 or higher.
- **Patient contact hours** with a **minimum of 150 hours** of verifiable direct patient care must be completed prior to matriculation in either a volunteer or paid capacity. **In addition**, a **minimum of 40 hours** of verifiable **direct shadowing of a Physician Assistant** with **at least 20 of those hours** spent directly shadowing a Physician Assistant in a **primary care setting** (Family Medicine, Internal Medicine, Pediatrics, or Emergency/Urgent Care Medicine). Applicants working/volunteering directly with a Physician Assistant in a primary care setting must complete a minimum of 160 hours. Though not required, it is strongly recommended that at least half of the required patient contact and shadowing hours are completed prior to the time of the applicant's interview date.
- Applicants are required to meet all the technical standards of the LMU-DCOM PA Program.

Applicants may apply to the LMU-DCOM PA Program even though prerequisite courses or Baccalaureate (Bachelor) degree have not been completed; however, all prerequisite courses and Baccalaureate (Bachelor) degree must be completed prior to matriculation.

Applicants who have taken their prerequisite courses at different regionally accredited colleges or universities must have all official transcripts submitted directly from those colleges or universities to CASPA.

Because of the rapid evolution of the basic sciences and the rigor of the LMU-DCOM PA Program, it is highly recommended that applicants who have completed prerequisite science coursework greater than five years prior to application review the concepts covered in those courses prior to matriculation if accepted into the Program. Competitive applicants will have taken the following additional courses: epidemiology, biostatistics, advanced psychology, abnormal psychology, human sexuality, cell biology, embryology, histology, immunology, parasitology, pathogenic bacteriology, advanced chemistry, quantitative analysis, physics, and technical writing.

Applying to the LMU-DCOM PA Program

The LMU-DCOM PA Program is a participant of the Central Application Service for Physician Assistants (CASPA) (<https://portal.caspaonline.org/>). Deadlines for CASPA submissions will be posted online. Applications will not be processed until the Program has received **both** the CASPA and LMU-DCOM PA Program Supplemental Application.

A checklist for completing the LMU-DCOM PA Program application process may be found on the Program's website (<https://www.lmunet.edu/public/uploads/dcom/pa/checklist.pdf>).

- Applicants are required to complete and submit the LMU-DCOM PA Program Supplemental Application and the non-refundable \$50.00 Supplemental Application fee.
- Applicants are required to submit official transcripts from the regionally accredited universities and/or colleges where the candidate earned a bachelor's degree and completed any of the prerequisite courses required for admission to the LMU-DCOM PA Program.
- Applicants are required to submit three (3) letters of reference to CASPA. References should include at least one letter from a **Physician Assistant (PA)**, physician (DO or MD), or other health care professional and at least one letter from the applicant's pre-professional advisor, science professor, or former employer.
- Applicants are required to take the general test component of the Graduate Record Examination (GRE) within five (5) years of the application date and have scores reported to LMU (**school code: 1408, PA code: 0634**). No minimum score is required; however, competitive applicants will have a GRE score of 4.0 or higher (1000) or higher with previous scoring system. Applicants are required to log the score on CASPA when completing the application. (www.gre.org)
- An applicant whose native language is not English is required to submit scores from the combined TOEFL and TSE examinations unless the applicant is a graduate of a U.S. college or university. The minimum required score for the Internet Based Testing (IBT) is 79 and a minimum score of 26 is required for the speaking component.
- Applicants are required to provide documentation of a minimum of 150 hours of direct patient care in either a volunteer or paid capacity **and** a minimum of 40 hours of shadowing a PA with at least 20 of those hours spent shadowing a PA in the primary care setting (Family Medicine, Internal Medicine, Pediatrics, or Emergency/Urgent Care Medicine).

Matriculation into the LMU-DCOM PA Program

Students accepted into the LMU-DCOM PA Program will receive a matriculation packet several months prior to the start of Summer I classes. This packet includes items required for matriculation into the LMU-DCOM PA Program and associated deadlines for completed and submitted paperwork. Students who do not adhere to deadlines for completion and submission of paperwork may lose their seat in the LMU-DCOM PA Program for the cohort into which they were accepted.

Immunization, PPD, and Drug Screen Requirements Prior to Matriculation

Students are required to have their primary care provider for a health history and physical examination to confirm that the student meets the technical requirements of the Program in addition to reviewing compliance with required immunizations and a PPD test.

1. *Proof of TdaP vaccine once as an adult. Tetanus (TdaP/Td) must be current through graduation.*
2. *Negative PPD screening for tuberculosis*
If prior history of tuberculosis, BCG vaccination, or positive PPD, must provide negative chest radiograph within 6 months of matriculation
3. *Proof of **initial** vaccination in Hepatitis B series. If series is already completed, then proof of immunity (Hep B Surface AB titer – qualitative OR quantitative) copy of results for student file.**
4. *Urine drug screen (10 panel testing) negative except for prescribed medications. Copy of results with list of substances tested to be provided for student file. For positive substances, provide copy of prescription.*
5. *Proof of immunity against Measles (Rubeola), Mumps, and Rubella*
 - a. Qualitative or quantitative antibody titers for MMR
 - b. If any of the three components show insufficient immunity, the student is to receive a booster vaccination and recheck the titer(s) 6 weeks later.
6. *Proof of immunity against Varicella*
 - a. Qualitative or quantitative antibody titers for Varicella
 - b. History of infection is not considered proof of immunity
 - c. If antibody titer is negative, the student is to receive a booster vaccination and recheck the titer 6 weeks later

Student Health Insurance

Physical and emotional wellness is essential to academic success and the provision of competent patient care. As such, the LMU-DCOM PA Program requires all students enrolled in the program to maintain health insurance coverage from matriculation through graduation. Students must provide evidence of health insurance coverage prior to matriculation and prior to starting clinical rotations.

Criminal Background Check and Drug Screen

Prior to matriculation into the program students must submit a criminal background check and drug screen. Students shall be responsible for paying any and all associated costs of drug and alcohol screening, criminal background checks and finger printing, including retesting for any reason. Positive findings on a criminal background check and/or drug screen will be subject to review by the Assistant Dean of the LMU-DCOM PA Program. **The Program reserves the right to prohibit admission or progression in the LMU-DCOM PA Program to any student based on the results of a criminal background check and/or drug and alcohol screenings, and/or student refusal to submit to a criminal background check and/or drug and alcohol screenings.** Additionally, clinical sites reserve the right to refuse students based on the results of criminal background checks and/or drug and alcohol screenings.

Students with positive findings on pre-matriculation criminal background checks or drug and alcohol screenings will meet with the Assistant Dean of the LMU-DCOM PA Program to determine if matriculation is appropriate. Students with felony convictions or pending felony charges will not be considered for admission. Students with prior driving while under the influence (DUI) or misdemeanor convictions will be evaluated and advised on a case-by-case basis. Students with new positive findings on criminal background checks or drug and alcohol screenings at any time throughout the program will be subject to the policies as outlined above, and the procedure described in **Section II: LMU-DCOM PA Student Policies and Procedures; Criminal Background Check, Drug and Alcohol Screen, and Arrest Policy** in this handbook.

ACADEMIC CALENDAR

PA Class of 2020	
Summer I Semester (14 weeks)	
Orientation	May 14-15, 2018
Classes begin	May 15, 2018
Memorial Day – No class	May 28, 2018
Independence Day – No class	July 4, 2018
Last day of classes	August 17, 2018
Break	August 20-24, 2017
Fall Semester (16 weeks)	
Classes begin	August 27, 2018
Labor Day – No class	September 3, 2018
Thanksgiving Break	November 22-23, 2018
Last day of classes	December 17, 2018
Break (subject to change based on University calendar)	December 17, 2018 – January 1, 2019
*TAPA Conference dates to be determined.	
Spring Semester (16 weeks)	
Classes begin	January 2, 2019
Martin Luther King Day – No class	January 21, 2019
Good Friday – No class	April 19, 2019
Last day of classes	April 18, 2019
*Mission Trip dates to be determined.	
Summer II Semester (12 weeks didactic / 4 weeks clinical)	
Classes begin	April 24, 2019
Memorial Day – No class	May 27, 2019
Last day of classes	July 12, 2019
Break	July 15-19, 2019

Clinical rotations begin	July 22, 2019
Fifth Semester begins (18 weeks)	August 19, 2019
Sixth Semester begins (18 weeks)	December 23, 2019
Seventh Semester begins (14 weeks)	April 27, 2020
Graduation	August 1, 2020

PA PROGRAM CURRICULUM

DIDACTIC PHASE (63 semester hours)			
Summer I Semester (318 contact hours, 15 semester hours)			
Course Number	Course Title	Contact Hours	Semester Hours
PAS 500	Introduction to the PA Profession	18	1.0
PAS 505	Pharmacology	18	1.0
PAS 510	Anatomy	120	5.0
PAS 515	Physiology/Pathophysiology I	54	3.0
PAS 520	Physical Diagnosis I	72	3.0
PAS 575	Public Health Issues	36	2.0
Fall Semester (351 contact hours, 18.5 semester hours)			
PAS 516	Physiology/Pathophysiology II	36	2.0
PAS 521	Physical Diagnosis II	72	3.0
PAS 535	Pharmacology/Pharmacotherapeutics	36	2.0
PAS 550	Clinical Medicine I	171	9.5
PAS 560	Research Methods	36	2.0
Spring Semester (351 contact hours, 18.5 semester hours)			
PAS 517	Physiology/Pathophysiology III	36	2.0
PAS 536	Pharmacology/Pharmacotherapeutics II	36	2.0
PAS 540	Behavioral Medicine	36	2.0
PAS 545	Clinical Skills I	72	3.0
PAS 551	Clinical Medicine II	171	9.5
Summer II Semester (216 contact hours, 11 semester hours)			
PAS 525	Medical Law, Ethics, and Health Care Delivery Systems	18	1.0
PAS 546	Clinical Skills II	72	3.0
PAS 552	Clinical Medicine III	90	5.0
PAS 565	Surgery/Emergency Medicine	36	2.0
CLINICAL PHASE (52 semester hours)			
PAS 600	Capstone Project	160*	4.0
PAS 610	Family Medicine	320*	8.0
PAS 620	Internal Medicine	320*	8.0
PAS 625	Behavioral Medicine	160*	4.0
PAS 630	Emergency Medicine	160*	4.0
PAS 640	Surgery	160*	4.0
PAS 650	Pediatrics	160*	4.0
PAS 660	Elective	160*	4.0
PAS 665	Selective	160*	4.0
PAS 670	Women's Health	160*	4.0
PAS 690	Orthopedics	160*	4.0
115 TOTAL SEMESTER HOURS			

*Clinical rotation contact hours are based on 40 hours per week of clinical rotation.

COURSE CATALOG

PAS 500 Introduction to the PA Profession

This course is designed to introduce the student to the inner workings of the PA profession; its history, development, organizations, current trends in the profession, the physician/PA team, professionalism, patient consent, HIPAA, credentialing, and licensure. This course also explores cultural issues and patient care, quality assurance, and risk management.

Semester hour(s): 1.0

Prerequisite(s): Matriculation into the LMU-DCOM PA Program

PAS 505 Pharmacology

This course will introduce students to the general principles of pharmacology (pharmacokinetics, pharmacotherapy, and pharmacodynamics). The focus will be the basic science principles that provide the foundation for clinical pharmacology and pharmacotherapeutics. The course will also review medical microbiology, human biochemistry and physiology as it relates to pharmacokinetics and pharmacodynamics.

Semester hour(s): 1.0

Prerequisite(s): Matriculation into the LMU-DCOM PA Program

PAS 510 Anatomy

This course is focused on the body's structure. The course is organized according to six major body regions: lower limb and back; upper limb; thorax; abdomen; pelvis; and head and neck. Lectures, tutorials, and computer aided instruction will be given throughout the course. Students will work with prosections in the anatomy laboratory. Each student is expected to learn anatomical terminology as well as three-dimensional and radiological anatomy. Throughout the course students will be challenged to relate the anatomy to the solution of clinical problems. The latter is an integral part of the anatomy curriculum. Students will be evaluated by a series of written and laboratory practical examinations.

Semester hour(s): 5.0

Prerequisite(s): Matriculation into the LMU-DCOM PA Program

PAS 515 Physiology/Pathophysiology

This is the first of three courses covering human physiology and pathophysiology. In particular, this course covers the normal physiologic concepts, mechanisms and relevant anatomy involved in the healthy individual. In some cases, pathophysiology and disease mechanisms and presentation will also be discussed to add additionally layers of context to the material and how it relates with material presented in concomitant and subsequent courses.

Semester hour(s): 3.0

Prerequisite(s): Matriculation into the LMU-DCOM PA Program

PAS 516 Physiology/Pathophysiology II

This is the second of four course series in Physiology and Pathophysiology. Students acquired basic knowledge of general principles of cellular physiology, fundamentals of regulatory and organ systems physiology. In this second course, students will build on and apply their knowledge to analyze the pathophysiology of hematology, as well as the renal, endocrine, cardiovascular and respiratory systems. This course runs in parallel with Clinical Medicine I (PAS 550) and Pharmacology/Pharmacotherapy I (PAS 535), covers the same organ systems, and is designed to lay the foundation for those courses.

Semester hour(s): 2.0

Prerequisite(s): PAS 500, 505, 510, 515, 520, and 575

PAS 517 Physiology/Pathophysiology III

This is the third of three course series in Physiology and Pathophysiology. Students acquired basic knowledge of general principles of cellular physiology, fundamentals of regulatory and organ systems physiology. In this third course, students will build on and apply their knowledge to analyze the pathophysiology of neurologic, orthopedic, rheumatologic, gastrointestinal, and reproductive systems. This course runs in parallel with Clinical Medicine II (PAS 551) and Pharmacology/Pharmacotherapy II (PAS 536), covers the same organ systems; and is designed to lay the foundation for those courses.

Semester hour(s): 2.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 520, 521, 535, 550, 560, and 575

PAS 520 Physical Diagnosis I

This course is designed to introduce the student to patient history taking and communication skills. Students will begin using medical diagnostic equipment as they develop the skills needed to perform complete and focused physical examinations. This course is in the lecture, small group, and laboratory formats. Students will examine assigned laboratory partners and simulated patients to gain the skills and knowledge to perform a thorough history and physical examination. Students will build on their clinical assessment and documentation skills through participation in small group case studies and Objective Structured Clinical Encounters (OSCE) using human patient simulators. In addition, students will complete the Basic Life Support (BLS) and learn airway management skills.

Semester hour(s): 3.0

Prerequisite(s): Matriculation into the LMU-DCOM PA Program

PAS 521 Physical Diagnosis II

This course is a continuation of Physical Diagnosis I. Students will learn additional components of the physical examination, recognize abnormal and normal findings, and communicate the information in oral and written formats. Special issues involving the health histories and physical examination of the pediatric and geriatric patient will be addressed. Students will also learn and practice the male and female genitourinary examination on human patient simulators. Students will build on their clinical assessment, documentation, and Basic Life Support (BLS) skills through small group case studies, OSCEs, and 3-D mannequin simulations. In addition, students will complete the Advanced Cardiac Life Support (ACLS), learn venipuncture and intravenous catheter insertion, and practice airway management skills.

Semester hour(s): 3.0

Prerequisite(s): PAS 500, 505, 510, 515, 520, and 575

PAS 525 Medical Law, Ethics, and Health Care Delivery Systems

This course is designed to provide a fundamental level of knowledge of the structure and function of the U.S. healthcare delivery system, its medical laws, and the ethical theories and issues associated as they apply to the PA and PA/physician team. Issues discussed will include reimbursement, inequality to accessing health care issues, health care policies, and the roles of the different members of the health care professional team.

Semester hour(s): 1.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 517, 520, 521, 535, 536, 545, 550, 551, 560, and 575

PAS 535 Pharmacology/Pharmacotherapeutics I

The focus of this course is basic pharmacology and pharmacotherapeutics of selected drug classes. The course runs parallel to Physiology/Pathophysiology II (PAS 516) and Clinical Medicine I (PAS 550) courses and is designed to provide a background understanding of medication actions in health and disease.

Semester hour(s): 2.0

Prerequisite(s): PAS 500, 505, 510, 515, 520, and 575

PAS 536 Pharmacology/Pharmacotherapeutics II

This is the second course in Pharmacology and Pharmacotherapeutics. Students will add to their knowledge of general principles of pharmacology, pharmacokinetics, and pharmacotherapeutics. The course runs parallel to the Physiology/Pathophysiology III (PAS 517) and Clinical Medicine II (PAS 551) courses and is designed to provide a background understanding medication actions in health and disease.

Semester hour(s): 2.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 520, 521, 535, 550, 560, and 575

PAS 545 Clinical Skills I

This is the first of a two-semester course designed to help students develop clinical and procedural skills common to office and emergency department settings. Students will receive instruction in lumbar puncture, slit lamp evaluation, insertion of nasogastric and urinary catheters, interpretation of images obtained by x-ray, computed tomography, and magnetic resonance imaging), examination of the neurologic system, special orthopedic examination techniques, joint injection/aspiration, and interpretation of cardiac rhythm strips and 12-lead electrocardiographs. Students will have an opportunity to practice learned skills during laboratory sessions. Additionally, students will have an opportunity to practice previously learned skills of airway management, venipuncture, and peripheral venous access during open

laboratory sessions. Students will build on their clinical assessment and documentation skills learned in PAS 520 and PAS 521, Basic Life Support (BLS) and Advanced Cardiac Life Support (ACLS) skills through OSCEs and 3-D mannequin simulations. In addition, students will complete the Pediatric Advanced Life Support (PALS) course.

Semester hour(s): 3.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 520, 521, 535, 550, 560, and 575

PAS 546 Clinical Skills II

A continuation of PAS 545, this is the second of a two-semester course designed to help students develop clinical and procedural skills common to office, emergency department, and operating room settings. Students will receive instruction in skills gowning, gloving, surgical scrubbing, sterile technique, wound closure, surgical knot tying, surgical instrument recognition, review of protective personal equipment, skin lesion biopsy techniques, spinal immobilization techniques, orthopedic splinting, ultrasound techniques, arterial and central line insertion, chest tube thoracostomy and needle decompression, interpretation of images obtained by x-ray, computed tomography, magnetic resonance imaging, and ultrasound, interpretation of cardiac rhythm strips and 12-lead electrocardiographs, and billing and coding. Students will have the opportunity to practice learned skills during laboratory session. Additionally, students have an opportunity to practice previously learned skills of airway management, venipuncture, peripheral venous access, joint injections, lumbar puncture, and endotracheal intubation during open laboratory sessions. Students will build on their clinical assessment and documentation skills learned in PAS 520 and PAS 521, Basic Life Support (BLS), Advanced Cardiac Life Support (ACLS), and Pediatric Advanced Life Support (PALS) skills through OSCEs and 3-D mannequin simulations.

Semester hour(s): 3.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 517, 520, 521, 535, 536, 545, 550, 551, 560, and 575

PAS 550 Clinical Medicine I

This course is designed to examine the epidemiology, etiology, clinical presentation, diagnostic evaluation, management, and follow-up of various diseases and disorders encountered in the primary care setting. Students will learn how to formulate differential diagnoses, recognize important history and physical examination clues, order appropriate diagnostic studies, interpret the results of the diagnostic studies, and apply this information to the diagnosis and treatment of various diseases and disorders encountered in the primary care setting. This course emphasizes diseases and disorders related to the immune (infectious disease), hematologic (including oncology), renal, endocrine, cardiovascular, and pulmonary systems.

Semester hour(s): 9.5

Prerequisite(s): PAS 500, 505, 510, 515, 520, and 575

PAS 551 Clinical Medicine II

This course is a continuation of Clinical Medicine I (PAS 550) examining the epidemiology, etiology, pathophysiology, clinical presentation, diagnostic evaluation and management of various diseases and disorders. Students will learn to correlate epidemiologic data, physiology and pathophysiology concepts, and history and physical examination findings to formulate differential diagnoses for common complaints found in the primary care setting. Students will learn what diagnostic studies are indicated for a given clinical presentation, how to interpret the results of those diagnostic studies, and how to decide if follow-up testing is required. Students will also learn the appropriate pharmacologic and non-pharmacologic management for common complaints found in the primary care setting. Emphasis in this course will be on conditions of the neurologic, ophthalmologic, otolaryngologic, gastroenterologic, rheumatologic, musculoskeletal, and reproductive systems.

Semester hour(s): 9.5

Prerequisite(s): PAS 500, 505, 510, 515, 516, 520, 521, 535, 550, 560, and 575

PAS 552 Clinical Medicine III

This course is a continuation of Clinical Medicine I (PAS 550) and Clinical Medicine II (PAS 551) studying the epidemiology, etiology, pathophysiology, clinical presentation, diagnostic evaluation, and management of common conditions encountered in the primary care setting. This course will focus on the health maintenance and evaluation and management of common disorders encountered in pediatric and geriatric patients. Students will also learn the etiology, epidemiology, pathophysiology, clinical presentation, diagnostic evaluation, and management of dermatologic conditions encountered in the primary care setting. Additionally, students will learn how to evaluate and manage common conditions encountered in the hospitalized patient and provide for patient safety.

Semester hour(s): 5.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 517, 520, 521, 535, 536, 545, 550, 551, 560, and 575

PAS 560 Research Methods

This course emphasizes the incorporation of evidence-based medicine, through evaluation and interpretation of current research, into clinical practice. Students will become familiar with research methodology and various forms of research presentation. Methods for critically appraising medical literature and strategies for keeping current with new medical findings are stressed throughout the course.

Semester hour(s): 2.0

Prerequisite(s): PAS 500, 505, 510, 515, 520, and 575

PAS 565 Surgery and Emergency Medicine

In this course students will learn the epidemiology, etiology, pathophysiology, clinical presentation, diagnostic evaluation, and management of common surgical conditions and emergent medical conditions. Students will learn the important concepts necessary for pre-, intra-, and post-operative care of surgical patients. Students will also learn how to prioritize the evaluation and management of patients presenting with acute surgical and emergent medical conditions. Students will have the opportunity to practice concepts learned in this course and build on their clinical assessment and documentation skills through OSCEs and 3-D mannequin simulations.

Semester hour(s): 2.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 517, 520, 521, 535, 536, 545, 550, 551, 560, and 575

PAS 575 Public Health Issues

This course will introduce students to public health initiatives unique to the United States, and more specifically, rural Appalachia. The areas of health communication and cultural competency will be discussed as it applies to public health initiatives. Students will identify community resources and health services of benefit to individual patients and the community.

Semester hour(s): 2.0

Prerequisite(s): Matriculation into the LMU-DCOM PA Program

PAS 600 Capstone Project

This course is designed to enable PA students to interpret research, write scholarly papers on approved topics in clinical medicine and do various other activities, including obtaining certifications and participation in continuing medical education which leads to professional development of the student.

Semester hour(s): 4.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 517, 520, 521, 525, 535, 536, 545, 546, 550, 551, 552, 560, 565 and 575

PAS 610 Family Medicine

This is a required 8-week rotation in family practice under the supervision of a clinical site preceptor. The student will gain experience and be able to integrate the knowledge and skills learned during the didactic phase to interact with patients and their families, order and interpret lab and diagnostic tests, evaluate, and manage patients effectively. Students will have the opportunity to manage acute and chronic care in addition to patient education and increase their knowledge in the use of psychoactive pharmaceuticals. (Minimum of 280 hours for rotation)

Semester hour(s): 8.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 517, 520, 521, 525, 535, 536, 545, 546, 550, 551, 552, 560, 565 and 575

PAS 620 Internal Medicine

This is a required 8-week rotation in internal medicine under the supervision of a clinical site preceptor. The student will gain experience and be able to integrate the knowledge and skills learned during the didactic phase to interact with patients and their families, order and interpret lab and diagnostic tests, evaluate, educate patients about health maintenance, review patient records and evaluate established patients for their continual medical care. Students will have the opportunity to manage acute and chronic care in addition to patient education. With experience in both inpatient and outpatient settings, the student will be able to recognize emergent, acute, and chronic diagnoses and participate in the necessary continuity of care for each. (Minimum of 280 hours for rotation)

Semester hour(s): 8.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 517, 520, 521, 525, 535, 536, 545, 546, 550, 551, 552, 560, 565 and 575

PAS 625 Behavioral Medicine

This is a required 4-week rotation under the supervision of the site preceptor in which students will have the opportunity to learn about behavioral health conditions and interact with patients and their families. The student will gain experience in interviewing and assessing the behavioral health patient, ordering and interpreting lab and diagnostic tests, evaluating, and managing patients in a behavioral health setting. (Minimum of 120 hours for rotation)

Semester hour(s): 4.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 517, 520, 521, 525, 535, 536, 545, 546, 550, 551, 552, 560, 565 and 575

PAS 630 Emergency Medicine

This is a required 4-week rotation under the supervision of the site preceptor in which the student will have the opportunity to evaluate and treat a wide variety of urgent, emergent and life-threatening conditions. The student will learn to triage patients, interact with patients' families, and become more proficient at taking rapid accurate histories, performing physical examinations, ordering appropriate diagnostic tests, and formulating a treatment plan. The student will have the opportunity to improve their oral presentations in a fast-paced environment. This rotation should give the student the opportunity to practice many clinical procedures such as suturing, endotracheal intubation, and ACLS. (Minimum of 140 hours for rotation)

Semester hour(s): 4.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 517, 520, 521, 525, 535, 536, 545, 546, 550, 551, 552, 560, 565 and 575

PAS 640 Surgery

This is a required 4-week rotation in surgery under the supervision of a clinical site preceptor. The student will participate in pre, peri, and postoperative care. Students will gain experience in the evaluation of acutely ill surgical patients, assist in surgery, and identify indications, contraindications, and potential complications. (Minimum of 140 hours for rotation)

Semester hour(s): 4.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 517, 520, 521, 525, 535, 536, 545, 546, 550, 551, 552, 560, 565 and 575

PAS 650 Pediatrics

This is a required 4-week rotation in pediatrics under the supervision of a clinical site preceptor. The student will refine their history taking and physical examination skills in the pediatric population, perform well child checks, evaluate children for developmental milestones, and diagnose and treat acute and chronic illnesses in children and adolescents. The student will have the opportunity to educate and counsel the patient and their parent or guardian. (Minimum of 140 hours for rotation)

Semester hour(s): 4.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 517, 520, 521, 525, 535, 536, 545, 546, 550, 551, 552, 560, 565 and 575

PAS 660 Elective

This is a required 4-week rotation in a field chosen by the student. This experience gives the student the opportunity to enhance their knowledge and skills in a particular specialty of medicine. The site must be approved by the Director of Clinical Education. (Minimum of 140 hours for rotation)

Semester hour(s): 4.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 517, 520, 521, 525, 535, 536, 545, 546, 550, 551, 552, 560, 565 and 575

PAS 665 Selective

This is a required 4-week rotation in one of the core rotations that is chosen by the student. This experience gives the student the opportunity to enhance their knowledge and skills in a particular specialty of medicine chosen from the core rotation options. The site must be approved by the Director of Clinical Education. (Minimum of 140 hours for rotation)

Semester hour(s): 4.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 517, 520, 521, 525, 535, 536, 545, 546, 550, 551, 552, 560, 565 and 575

PAS 670 Women's Health

This is a required 4-week rotation under the supervision of the site preceptor in which students will have the opportunity to see a wide variety of concerns related to the female reproductive system. Students will further develop their knowledge of assessment and treatment, preventive care, and screening recommendations of women's health issues. The rotation will also provide the opportunity for the student to become more familiar with women's health exams, pregnancy, menopause, and infertility. The student will have opportunities to participate in pre- and post-natal care. (Minimum of 140 hours for rotation)

Semester hour(s): 4.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 517, 520, 521, 525, 535, 536, 545, 546, 550, 551, 552, 560, 565 and 575

PAS 690 Orthopedics

This is a required 4 week rotation in orthopedics under the supervision of the site preceptor. Students will have the opportunity to develop skills to care for patients with orthopedic problems that can be found in the primary care setting. Students will have the opportunity to participate in pre-, intra-, and postoperative care. (Minimum of 140 hours for rotation)

Semester hour(s): 4.0

Prerequisite(s): PAS 500, 505, 510, 515, 516, 517, 520, 521, 525, 535, 536, 545, 546, 550, 551, 552, 560, 565 and 575

REGISTRATION

Summer I Semester (Didactic Phase)

Matriculating Students are registered by the Registrar for Summer I courses.

Fall, Spring, and Summer II Semesters (Didactic Phase)

Didactic Phase students are responsible for completing Express Registration for all Fall, Spring, and Summer II Didactic Phase courses. Students will register for a placeholder Clinical Phase course when completing Summer II course registration. This placeholder will be converted when the Clinical Phase course has been confirmed by the clinical team. The Financial Aid Office will notify students, via email, about registration and financial aid deadlines and provide instructions for Express Registration.

Clinical Phase

Clinical Phase students are responsible for completing Express Registration for all Clinical Phase courses. Students will register for the Capstone Project (PAS 600) during the fall semester of the Clinical Phase. The Financial Aid Office will notify students, via email, about registration and financial aid deadlines and provide instructions for Express Registration.

GRADING SYSTEM

Course Grades

The Program uses the following grading scale to determine letter grades for each course.

90-100% = A

80-89% = B

70-79% = C

< 70% = F

Academic Standing

LMU-DCOM PA Students in good academic standing will have met all of the following criteria:

- Earned a grade of 70% (C) or higher in all didactic and clinical courses required by the LMU-DCOM PA Program
- Met the LMU-DCOM PA Program professionalism and student code of conduct expectations
- Complied with all University and LMU-DCOM PA Program policies and procedures

ACADEMIC GRIEVANCE REPORTING

If an LMU-DCOM PA Student has a grievance about an academic issue, the student must discuss the matter with the Course Director first. If the matter is unresolved after meeting with the Course Director, the student may discuss the matter with the Director of Didactic Education (during the Didactic Phase) or the Director of Clinical Education (during the Clinical Phase). If the matter remains unresolved, the student may bring the matter to the Program Director for final resolution of the academic issue.

ACADEMIC SUPPORT SERVICES

LMU-DCOM PA Students may receive academic support in the form of guidance in study methods and further explanation of course content from faculty members and Course Directors. Students may self-refer or be referred by faculty members to the Director of Academic Support for further services including study skills, test-taking strategies, and counseling. Appointments with Dr. Justina Hyfantis, the Director of Academic Support, can be made via email request (Justina.hyfantis@lmunet.edu) or phone 423-869-6563.

CHANGE OF NAME OR ADDRESS

If an LMU-DCOM PA Student changes their name, they must notify the Registrar, the Admissions Coordinator, Security, Information Services, Financial Aid Officer, and the Director of Didactic Education (during the Didactic Phase) or the Director of Clinical Education (during the Clinical Phase).

If an LMU-DCOM PA Student changes their personal and/or emergency contact information, they must notify the Director of Didactic Education (during the Didactic Phase) or the Director of Clinical Education (during the Clinical Phase).

The Registrar, Admissions Coordinator, and Director of Financial Services will need each student's current name and physical address at graduation.

FINANCIAL SERVICES

The Director of Financial Services is responsible for providing qualified students the appropriate documents and counseling to secure financial assistance in the form of loans, scholarships, and grants. Please see <http://www.lmunet.edu/academics/schools/debusk-college-of-osteopathic-medicine/pa/financial-services> for detailed information on the following:

- How to apply for financial aid
- General eligibility requirements
- Student rights and responsibilities
- Expected cost of attendance/budgets
- Financial aid award completion
- Obtaining a credit report
- Outside sources of Student Aid for Physician Assistant Students
- Loan programs
- Tuition and fees

Estimated Costs for PA Class of 2020

(Costs are estimated and are subject to change.)

(Does not include estimated costs for room, board, and transportation.)

Item	Cost	Total
Tuition	\$12,500.00/semester	\$87,500.00
Fees (does not include loan fees)		\$1,550.00
Books and Supplies (computer, diagnostic equipment, white coat, scrubs)		\$4,275.00
Health Insurance (estimated cost; not provided by the University)	\$300.00/month	\$8,100.00

Please see the *Lincoln Memorial University, Student Handbook, 2016-2017 Academic Year, Section II: Campus Services; Financial Services* (<http://www.lmunet.edu/student-life/handbooks>) for detailed information on the following:

- Refund of institutional tuition, room and board charges
- Refund schedule
- Check cashing

HEALTH SERVICES

Medical Services

LMU students are eligible to use medical services offered through the University Medicine Clinic (UMC). UMC will file claims with the health insurance company; however, students are responsible for payments not covered by their health insurance provider. Appointments can be made by phone at 423-869-7193. Clinic locations include 165 Westmoreland Street, Harrogate, TN and 424 N. Broad Street, New Tazewell, TN.

There are two hospitals in the immediate vicinity, Claiborne County Hospital, 1850 Old Knoxville Road, Tazewell, TN and Appalachian Regional Hospital (ARH), 3600 W. Cumberland Avenue, Middlesboro, KY. Both hospitals have emergency services 24 hours a day, seven days a week. Hospital care is not included with tuition; therefore, students are required to pay all charges for services rendered.

Lincoln Memorial University, Student Handbook, 2017-2018 Academic Year, Section II: Campus Services; Health Services (<http://www.lmunet.edu/student-life/handbooks>)

Counseling Services

Please refer to *Section II: LMU-DCOM PA Student Policies and Procedures; Student Counseling Services* of this handbook and *Lincoln Memorial University, Student Handbook, 2017-2018 Academic Year, Section II: Campus Services; Counseling Services* (<http://www.lmunet.edu/student-life/handbooks>)

CAMPUS SERVICES

Lincoln Memorial University, Student Handbook, 2017-2018 Academic Year, Section II: Campus Services (<http://www.lmunet.edu/student-life/handbooks>)

CAREER SERVICES

LMU-DCOM Physician Assistant Mentorship Program

The LMU-DCOM Office of Alumni Services provides a mentorship program to assist current LMU-DCOM PA Students with networking. The mission of the LMU-DCOM Physician Assistant Mentorship Program is to provide Physician Assistant alumni mentors to current LMU-DCOM PA Students wishing to network with PA professionals to learn more about job opportunities and specialty choices. The LMU-DCOM Physician Assistant Mentorship Program provides current PA students an opportunity to correspond with alumni PAs with similar interests so that they may provide support and guidance as students begin their job searches.

Visit <http://dcomalumni.lmunet.edu/s/1119/gid4/16/interior.aspx?sid=1119&gid=4&pgid=1622> and click on “Mentorship” to request a mentor.

PA Job Bank

The LMU-DCOM Office of Alumni Services maintains an online PA Job Bank for graduates.

Visit <http://dcomalumni.LMUnet.edu> and click on “PA Job Bank” to see the types of positions being advertised to LMU-DCOM PA Program graduates.

Appendix A

Receipt of Physician Assistant Handbook and Catalog and Lincoln Memorial University Handbook

I hereby acknowledge that I have received a copy of the Physician Assistant Handbook and Catalog. I further acknowledge that I am responsible for all the information contained within this handbook and I will abide by the policies, rules and regulations set forth thereof.

I further acknowledge that I have received a copy of the Lincoln Memorial University Handbook and that I am responsible for the policies rules and regulations set forth in that publication. I realize in some cases, the rules and regulation of the Physician Assistant Handbook and Catalog exceed those of the Lincoln Memorial University, examples being in areas such as class attendance, dress code, etc., and understand in such cases I must comply with those policies stated in the Physician Assistant Handbook and Catalog.

I understand that failure to comply with the policies; rules and procedures set forth in these handbooks may result in disciplinary action, suspension, or termination from the Lincoln Memorial University-DeBusk College of Osteopathic Medicine Physician Assistant Program.

Student Name (Printed Legibly)

Student Signature

Date

Appendix B

Participation of Students as Human Subjects

I understand that as part of my experience at the LMU-DCOM Physician Assistant Program, that I will be required to participate as a living subject and an examiner during the Didactic Phase of the Program. The program faculty expect that students will be willing, professional, and cooperative in participating in the physical examination courses and practicums.

I understand that I need to come to laboratories prepared and that I may be required to partially disrobe. I also understand that shorts will be required when examining the lower extremities. Upper body, including thorax, abdomen, and extremities will be examined. Males should remove their shirts and women should wear sports bras so they will be able to remove their shirts.

I understand that participation will not include breast or genitalia examinations. These examinations will be learned with the use of mannequins and/or professional patients.

I understand that faculty expect all students to dress as listed above for the designated activities and be willing to be inspected, palpated, percussed, and auscultated by their peers.

I have read, understand, and agree to abide by this policy.

Appendix C

Acknowledgement of Typical Demands for the PA Program

Typical Mental Demands

The LMU-DCOM PA student must possess the ability to:

- Comprehend, retain, analyze and integrate a large amount of information related to medicine and process this information in an appropriate amount of time so as to not negatively impact patient care
- Engage in long hours of study in the classroom, labs, and clinical rotations
- Respond appropriately to constructive feedback
- Communicate effectively with students, instructors, clinicians and patients in written, and oral format.
- Participate in written and practical examinations, procedures, and demonstrations
- Collect patient data, perform the physical examination, formulate a treatment plan, and provide patient education

Typical Physical Demands

The LMU-DCOM PA student must possess:

- Normal or corrected to normal visual and hearing acuity, hand and eye coordination, and manual dexterity
- Full range of motion including the capacity to sit for long periods in classroom
- The ability to assist patients in range of motion
- The ability to stand and walk for long periods of time in the hospital or clinic settings
- Capability to work long hours, stressful mental and physical situations, and exposure to various body fluids and communicable diseases

Typical Working Conditions

The LMU-DCOM PA student must be able to:

- Work long hours in the clinical and classroom environments with exposure to individuals with various beliefs, hostile individuals, those with disabilities, communicable diseases, radiation, and toxic substances
- Examine and interact with diverse patient populations with different cultural beliefs and a wide variety of acute and chronic medical and surgical conditions

Student Performance Requirements

The LMU-DCOM PA student will be required to perform

- Work in medical, surgical, emergency, ob/gyn, along with outpatient and inpatient settings on campus and off campus
- Full time didactic and clinical training
- Various medical and surgical procedures
- Pre-, peri-, and postoperative care

The LMU-DCOM PA Student will be required to:

- Demonstrate professionalism, and ethical demeanor, and an understanding of the medical law as it relates to physician assistants and the health care field
- Display an ability for mental and physical stamina by long hours in both the classroom and clinical settings
- Demonstrate knowledge, skills, and competencies to the level required by faculty
- Participate in community services
- Complete other duties to demonstrate aptitude for physician assistant profession

Appendix D

EXAM INSTRUCTIONS and POLICIES

I. EXAM DAY INSTRUCTIONS

- A. Arrive Early!
- B. Bring your laptop and power cord.
 1. Ethernet cable is optional. Connection needs to be made with the Internet at the end of the exam (only available in DCOM 101 & 102).
 2. If using wireless, be sure to:
 - a. Ensure the wireless switch is turned on and is functioning
 - b. Ensure access is with “Open Access” network.
 3. Absolutely **NO** electronic devices [i.e. cell phones, iPods, watches (electronic or otherwise), headphones, or Bluetooth enabled devices, etc.]. Only a personal laptop will be allowed in the exam area. No programs should be opened or running in the background of the laptop prior to entrance into exam area.
 4. **Possession of a cell phone or watch (regular or electronic), even if turned off, may result in an automatic zero for the exam.**
 5. Items permitted to bring to the exam room: pencils, pen, and one highlighting marker, a drink in unlabeled closable container (drink labels on bottles must be removed), tissue, wireless mouse, and foam earplugs. No hats, or “hoodies” are allowed in the exam room.
 6. Scrap paper sign turn in even if blank
- C. Once you enter the exam room, **all information provided in the exam room is confidential**. Do not discuss contents of exams or other information provided the day of the exam with students not present during exam day. Any breach of confidentiality is considered unprofessional conduct and will result in immediate referral to the Student Progress Committee (SPC) with a recommendation for dismissal.
- D. Seat assignments will be posted outside exam doors 15 minutes prior to exam PREP time. Once students are in the exam room for prep time they will not be allowed to exit until 30 minutes after the exam has started. Students must have their ID badges on their person before entering the exam room.
- E. Students should be in their assigned seat at exam PREP time. Once students enter the exam room, they will not be allowed to exit. Students must have ID badges on their person when entering the room.
- F. Once the student enters the exam room, no open programs (i.e., Word, PPT, etc.), no Internet websites, and nothing should be running on the laptop or in the background (i.e., SKYPE or Messenger)
- G. Students must be in their assigned seats before BEGIN time.
 1. Doors will close 5 minutes before BEGIN time. If students arrive after the doors are closed, they will be considered late and will get the Didactic Director or Program Director’s permission to take the exam.
 2. Students should NOT open any other programs except Exemplify
 3. The following tasks must be completed during PREP time before exam BEGIN time.
 4. Students will open Exemplify
 5. You should already have the exam downloaded
 6. A proctor will pass out one sheet of paper to each student a few minutes prior to exam BEGIN time. Write your name on the paper. **Do NOT** write anything else on this paper.
 7. Once you are prompted to begin, type the password provided by your proctor, launch the exam by clicking “Start Exam”
 8. You will see the Secure Exam Starting warning. Click “Continue”
 9. You will now see the Exam Code of Honor Notice. Click “Next”
 10. **Go through all steps until you reach to the “Please Wait” screen. STOP HERE at “Please wait”** Type in the code only when you are instructed to start and click “Start Exam”
 11. Late students will not be admitted into the exam area and will report to the Dean of Students or Program Director.
 12. Absolutely NO TALKING among peers during the exam time

13. Exemplify will save and backup your work EVERY **60 seconds**
14. Tools:
 - a. You will see an information tab at the top that will let you view the honor code and lab values.
 - b. At the top of the screen you will see time remaining. If you click on the clock, you get the option to add a silent alarm.
 - c. You will see a highlight symbol. If you click on it, you can highlight text.
 - d. Beside the highlighter, you will see a drop down menu. This is where the calculator is located.
15. If your computer freezes during the exam, raise your hand for the proctor. **DO NOT EXIT THE EXAM.**
16. Students wishing to use the restroom must click on “Exam Controls” in the menu bar of the exam, and choose “Hide exam”. Please record your name and time on the Sign Out/In Log located by the exit. The timer on the exam will NOT stop during restroom breaks.
 - a. The proctor will monitor restroom usage and will only allow a max of one (1) male and one (1) female students to use the facilities at a time.
 - b. **Absolutely, no talking or leaving the first level atrium during restroom breaks.**
 - c. The designated restrooms are on the 1st floor next to the auditorium.
17. Students must finish the exam by the END time. When time expires the exam will close automatically and answers will be uploaded. **Time cannot be extended.** When a student has finished, he/she must submit the exam by clicking on the “**Exam Controls**” drop down menu, then click on “**Submit Exam**” see below.
18. You will receive a warning that you are exiting the exam. Click on the box indicating you are ready to exit and click “**Exit**”
19. Wait for the green confirmation screen to appear. Please show this screen to your proctor and turn in your scrap paper before exiting the room.
20. The “**Leave Feedback**” button is for Exemplify comments on the Exemplify software NOT feedback on exam questions.
21. **After checkout, students must leave the common area in front of the examination room and may not under any circumstance use the designated exam restrooms.** Any student found violating any exam requirement and/or element of the honor-code will be referred to the appropriate school Dean.

II. SOFTWARE SECURITY

ANY ATTEMPT TO DISABLE OR TAMPER WITH EXAM SOFTWARE (Exemplify) SECURITY FEATURES WILL BE CONSIDERED A VIOLATION OF THE STUDENT HONOR CODE. IT IS YOUR RESPONSIBILITY TO FAMILIARIZE YOURSELF WITH YOUR EQUIPMENT AND THE SOFTEST SOFTWARE PRIOR TO THE START OF YOUR EXAM.

EXAMINATION HONOR CODE

Dishonesty of any kind on examinations, unauthorized possession of examination questions, duplication of examination questions, the use of unauthorized notes during an examination, obtaining information during an examination from another physician assistant student, assisting others to cheat, altering grade records, or illegally entering an office are instances of cheating and are violations of appropriate student conduct and professionalism.

Appendix E

Exposure to Infectious and Environmental Hazards

LMU-DCOM PA Program Policy on Needle Stick and Bloodborne Pathogen Exposure

Detailed information on the prevention and treatment of exposure to bloodborne pathogens is contained in the CDC brochure, “Exposure to Blood: what Healthcare Personnel Need to Know” (<http://stacks.cdc.gov/view/cdc/6853/>).

If a student experiences a needle stick, sharps injury, or is otherwise exposed to the blood of a patient while participating in activities directly related to the curriculum, the student should:

- **Immediately perform basic first aid.** Wash needle sticks and cuts with soap and water. Flush splashes to the nose, mouth, or skin with water. For ocular exposures, flush eyes with water, normal saline solution, or sterile irrigates for several minutes.
- **Immediately report the incident** to the Director of Didactic Education during the Didactic Phase of training or to the clinical preceptor and Director of Clinical Education during the Clinical Phase of training. Prompt reporting is essential. In some cases, postexposure treatment may be recommended and should be started as soon as possible. If there is a potential exposure to Human Immunodeficiency Virus (HIV), it is imperative to initiate postexposure prophylaxis (PEP) within two hours of the incident. Also, without prompt reporting, the source patient may be released before testing for infectious diseases can be conducted.
- **Seek postexposure services.** During the Didactic Phase, students will be referred to the University Medical Clinic (UMC) or one of two local hospitals. UMC will file claims with the health insurance company; however, students are responsible for payments not covered by their health insurance provider. UMC clinic locations include 165 Westmoreland Street, Harrogate, TN and 424 N. Broad Street, New Tazewell, TN. Call 423-869-7193 to schedule an appointment. There are two hospitals in the immediate vicinity, Claiborne County Hospital, 1850 Old Knoxville Road, Tazewell, TN and Appalachian Regional Hospital (ARH), 3600 W. Cumberland Avenue, Middlesboro, KY. Both hospitals have emergency services 24 hours a day, seven days a week. Hospital care is not included with tuition; therefore, students are responsible for the cost of services rendered.
- **File the claim with your personal health insurance company** as the primary insurance. **Do not** file as a worker’s compensation claim. File the claim with First Agency, Inc. as your secondary insurance. Fees and copays are paid through First Agency.
First Agency, Inc.
5071 West H Avenue
Kalamazoo, MI 49001-8501
Phone (269)381-6630
Fax (269) 381-3055
- **Complete the following documents (found at the end of the appendix) and submit to** the Didactic Administrative Assistant during the Didactic Phase of training or to the Assistant Clinical Coordinator during the Clinical Phase of training: Student Accident Claim, Authorization to Permit Use and Disclosure of Health Information, Parent/Guardian/Student Information, and Incident Form.
- **Copy the front and back of your health insurance card and submit to** the Didactic Administrative Assistant during the Didactic Phase of training or to the Assistant Clinical Coordinator during the Clinical Phase of training.
- **Collect all itemized bills for medical expenses associated with the injury that have not been paid** (itemized bills include the date of service, procedure code and diagnosis code – not balance due statements) including all worksheets, denials, and/or statements of benefits from your primary insurer (each charge must be processed by your primary insurance before those charges can be processed by First Agency, Inc.) and submit to the Didactic Administrative Assistant during the Didactic Phase of training or to the Assistant Clinical Coordinator during the Clinical Phase of training.
- **Collect a UB-04 or HCFA billing statement** related to the injury from the billing office of the clinical site during the Clinical Phase of training and submit to the Assistant Clinical Coordinator.

- The LMU-DCOM PA Program will submit all completed documents to First Agency, Inc.

Bloodborne Infectious Diseases: Human Immunodeficiency Virus (HIV), Hepatitis B Virus (HBV), and Hepatitis C Virus (HCV)

<https://www.cdc.gov/niosh/topics/bbp/default.html>

Human Immunodeficiency Virus (HIV)

Human Immunodeficiency Virus (HIV) is a blood-borne virus typically transmitted through sexual intercourse, shared intravenous drug needles, and mother-to-child transmission during the birth process or breast feeding. HIV disease is caused by infection with HIV-1 or HIV-2 retroviruses that attack the host's immune system, most specifically the CD4 cells. Co-infection with other viruses that share similar routes of transmission (HBV, HCV, HHV8) is common.

Acute seroconversion (the time period during which a specific antibody develops and becomes detectable in the blood) manifests as a flulike illness (fever, malaise, generalized rash) and may be associated with generalized lymphadenopathy. This occurs within two to four weeks after infection with HIV. People with acute seroconversion have a large amount of HIV in their blood (high viral load) and are very contagious. However, some people may not develop symptoms. Following acute seroconversion is a period of clinical latency where the HIV is still active but reproduces at much lower levels. This stage may last for years and may not cause any symptoms. AIDS is the most severe stage of HIV infection. In this stage, the immune system is severely impaired (CD4 cell count drops below 200 cells/mm) allowing for the development of opportunistic illnesses. Without treatment, people with AIDS typically survive about three years. Common symptoms of AIDS include fever, chills, sweats, malaise, generalized lymphadenopathy, and weight loss. Their viral load is high and they are very contagious.

Healthcare workers can acquire HIV infection through occupational exposures. As of December 31, 2013, there were 58 confirmed occupational transmissions of HIV and 150 possible transmissions reported in the United States. Of these, only one confirmed case has been reported since 1999. The risk of a healthcare worker becoming infected with HIV after being exposed to a needle stick contaminated with HIV-infected blood at work is 0.23%. Risk of exposure due to splashes with even overtly bloody contaminated body fluids is thought to be near zero.

It is the policy of the LMU-DCOM PA Program to follow CDC and OSHA guidelines to prevent transmission of HIV in the healthcare setting. LMU-DCOM PA Program students, faculty, and staff members are to follow standard precautions and assume that all blood or body fluids are potentially infectious. These guidelines include the following:

- Routine use of personal protective equipment (such as gloves, face and eye shields, and gowns) when anticipating contact with blood or body fluids.
- Immediate washing of hands and other skin surfaces after contact with blood or body fluids.
- Careful handling and disposal of sharp instruments during and after use.
- Careful use of safety devices developed to help prevent needle stick injuries.

Any LMU-DCOM PA Program student, faculty, or staff member with an occupational exposure is required to seek medical attention immediately as postexposure prophylaxis (PEP) with antiretroviral therapy (ART) is more effective the sooner it is initiated after exposure. Most PEP regimens follow a four-week, two-drug regimen initiated as soon as possible after exposure (within 72 hours). A three-drug regimen may be required for HIV exposures that pose an increased risk of transmission.

To date, there is no cure for HIV and AIDS and there is no vaccine to prevent HIV or AIDS.

**Occupational HIV Transmission and Prevention among Health Care Workers
CDC June 2015**

<https://www.cdc.gov/hiv/pdf/workplace/cdc-hiv-healthcareworkers.pdf>

Hepatitis B Virus (HBV)

Hepatitis B virus (HBV) is a hepadnavirus that invades hepatocytes. The interaction of the virus with the host immune system leads to liver injury and, potentially, cirrhosis and hepatocellular carcinoma. Infected people can experience an acute symptomatic phase (usually about 90 days after exposure to HBV) including fever, myalgia, malaise, anorexia, nausea, vomiting, jaundice, and right upper quadrant pain or they may be asymptomatic. Patients with chronic active hepatitis, especially during the replicative state, may have symptoms similar to the acute symptomatic phase.

Sexual contact, needle sticks, needle sharing blood transfusions, and organ transplantations are routes for HBV transmission. Blood contains the highest HBV titers of all body fluids and is the most important vehicle of transmission in the healthcare setting. HBV is highly resistant to extremes of temperature and humidity and can survive in dried blood at room temperature on environmental surfaces for at least one week. HBsAg can be found in other body fluids, including breast milk, bile, cerebrospinal fluid, feces, nasopharyngeal washings, saliva, semen, sweat, and synovial fluid.

HBV is the most efficiently transmissible of the blood-borne viruses important in healthcare settings. The risk of HBV infection is primarily related to the degree of contact with blood and the HBeAg status of the source patient. In studies of healthcare workers who sustained injuries from needles contaminated with blood containing HBV, the risk of developing clinical hepatitis if the blood was both HBsAg positive and HBeAg positive was up to 31%. By comparison, the risk of developing clinical hepatitis if the blood was HBsAg positive and HBeAg negative was up to 6%.

Before widespread implementation of HepB vaccination, HBV infection was a common occupational risk among healthcare workers. The use of standard precautions and routine HepB vaccination of healthcare workers have resulted in a 98% decline in HBV infections from 1983 through 2010 among healthcare workers.

It is the policy of the LMU-DCOM PA Program to follow CDC and OSHA guidelines to prevent transmission of HBV in the healthcare setting. LMU-DCOM PA Program students, faculty, and staff members are to follow standard precautions and assume that all blood or body fluids are potentially infectious. These guidelines include the following:

- Routine use of personal protective equipment (such as gloves, face and eye shields, and gowns) when anticipating contact with blood or body fluids.
- Immediate washing of hands and other skin surfaces after contact with blood or body fluids.
- Careful handling and disposal of sharp instruments during and after use.
- Careful use of safety devices developed to help prevent needle stick injuries.

OSHA mandates that healthcare workers who have a reasonable expectation of occupational exposure to blood or body fluids be offered the hepatitis B vaccine (Bloodborne Pathogens Standard [29 CFR 1910.1030 and 29 CFR 1910.030f]). Approximately 25% or more of medical and dental students and many physicians, surgeons, and dentists in the United States have been born to mothers in or from countries in Asia (including India), Africa, and the Middle East with high and intermediate endemicity for HBV. The CDC recommends that all healthcare providers at risk for HBV infection be tested and that all those found to be susceptible should receive the vaccine.

The three-dose HepB vaccine series produces a protective antibody response (anti-HBs \geq 10 ml/U/mL) in > 90% of healthy adults < 40 years-old. Factors such as smoking, obesity, aging, chronic medical conditions, drug use, diabetes, male sex, genetic factors, and immune suppression contribute to a decreased response to the HepB vaccine.

All LMU-DCOM PA Students are required to complete the HepB vaccine series. **Students must provide proof of initial vaccination in the HepB vaccine series (or if the series is already completed, then proof of immunity with a qualitative or quantitative anti-HBs titer) prior to matriculation and proof of immunity (with a qualitative or quantitative anti-HBs titer) prior to clinical rotations.**

Any LMU-DCOM PA Program student, faculty, or staff member with an occupational exposure is required to seek medical attention immediately to prevent delays in treatment. The management of a healthcare worker with an occupational exposure to HBV depends on the anti-HBs status of the healthcare worker and the HBsAg status of the source patient. The healthcare worker should be tested for anti-HBs and the source patient (if known) should be tested for HBsAg as soon as possible after the exposure. More detailed management recommendations are listed in

“Table 1. Post-exposure management of healthcare personnel after occupational percutaneous and mucosal exposure to blood and body fluids, by healthcare personnel HepB vaccination and response status”.

TABLE 1. Post-exposure management of healthcare personnel after occupational percutaneous and mucosal exposure to blood and body fluids, by healthcare personnel HepB vaccination and response status

Healthcare personnel status	Postexposure testing		Postexposure prophylaxis		Postvaccination serologic testing [†]
	Source patient (HBsAg)	HCP testing (anti-HBs)	HBIG*	Vaccination	
Documented responder [§] after complete series (≥3 doses)	No action needed				
Documented nonresponder [¶] after 6 doses	Positive/unknown	—**	HBIG x2 separated by 1 month	—	No
	Negative	No action needed			
Response unknown after 3 doses	Positive/unknown	<10mIU/mL**	HBIG x1	Initiate revaccination	Yes
	Negative	<10mIU/mL	None		
	Any result	≥10mIU/mL	No action needed		
Unvaccinated/incompletely vaccinated or vaccine refusers	Positive/unknown	—**	HBIG x1	Complete vaccination	Yes
	Negative	—	None	Complete vaccination	Yes

* HBIG should be administered intramuscularly as soon as possible after exposure when indicated. The effectiveness of HBIG when administered >7 days after percutaneous, mucosal, or nonintact skin exposures is unknown. HBIG dosage is 0.06 mL/kg.

† Should be performed 1–2 months after the last dose of the HepB vaccine series (and 4–6 months after administration of HBIG to avoid detection of passively administered anti-HBs) using a quantitative method that allows detection of the protective concentration of anti-HBs (≥10 mIU/mL).

§ A responder is defined as a person with anti-HBs ≥10 mIU/mL after ≥3 doses of HepB vaccine.

¶ A nonresponder is defined as a person with anti-HBs <10 mIU/mL after ≥6 doses of HepB vaccine.

** HCP who have anti-HBs <10mIU/mL, or who are un-vaccinated or incompletely vaccinated, and sustain an exposure to a source patient who is HBsAg-positive or has unknown HBsAg status, should undergo baseline testing for HBV infection as soon as possible after exposure, and follow-up testing approximately 6 months later. Initial baseline tests consist of total anti-HBc; testing at approximately 6 months consists of HBsAg and total anti-HBc.

ABBREVIATIONS

HCP = healthcare personnel
 HBsAg = hepatitis B surface antigen
 anti-HBs = antibody to hepatitis B surface antigen
 HBIG = hepatitis B immune globulin

Hepatitis C Virus (HCV)

Hepatitis C virus (HCV) is an RNA virus that invades hepatocytes leading to inflammation and possibly cirrhosis and hepatocellular carcinoma. Symptoms of acute HCV infection, such as arthralgias, myalgias, pruritis, paresthesias, can occur within six months after exposure to HCV. Most people with acute HCV infection develop chronic HCV infection.

Transfusion of blood contaminated with HCV was the leading mode of transmission prior to screening of donated blood for HCV antibody beginning in 1992. More advanced screening tests for HCV have reduced the risk of HCV transmission through blood transfusion to less than one per two million units transfused. People who inject illicit drugs with nonsterile needles are at the highest risk for HCV infection. HCV may also be transmitted via sexual contact, tattooing, sharing razors, and acupuncture. HCV transmission may occur during the birth process but breastfeeding is not associated with HCV transmission.

Healthcare workers can acquire HCV infection through needle stick injuries or other occupational exposures. Needle stick injuries in the healthcare setting result in a 3% risk of HCV transmission.

It is the policy of the LMU-DCOM PA Program to follow CDC and OSHA guidelines to prevent transmission of HCV in the healthcare setting. LMU-DCOM PA Program students, faculty, and staff members are to follow standard precautions and assume that all blood or body fluids are potentially infectious. These guidelines include the following:

- Routine use of personal protective equipment (such as gloves, face and eye shields, and gowns) when anticipating contact with blood or body fluids.
- Immediate washing of hands and other skin surfaces after contact with blood or body fluids.
- Careful handling and disposal of sharp instruments during and after use.
- Careful use of safety devices developed to help prevent needle stick injuries.

Any LMU-DCOM PA Program student, faculty, or staff member with an occupational exposure is required to seek medical attention immediately to prevent delays in treatment. HCV can be detected in blood within one to three weeks after exposure. There is currently no vaccine to prevent HCV. Any LMU-DCOM PA Program student, faculty, or staff member with an occupational exposure is required to seek medical attention immediately to prevent delays in treatment. Treatment of acute HCV can reduce the risk of progression to chronic HCV. Recommendations for pharmacologic therapy vary and management by a specialist is recommended.

Viral Hepatitis: Hepatitis C FAQs for Health Professionals CDC February 23, 2018

<https://www.cdc.gov/hepatitis/hcv/hcvfaq.htm>

Hepatitis D Virus (HDV)

HDV also infects hepatocytes but is uncommon in the United States. HDV infection only occurs among people who are infected with HBV because HDV is an incomplete virus that requires the helper function of HBV to replicate. HDV can be transmitted via percutaneous or mucosal contact with HDV-infected blood. Any LMU-DCOM PA Program student, faculty, or staff member with an occupational exposure is required to seek medical attention immediately to prevent delays in treatment. There is no vaccine for HDV but HepB vaccination can prevent HDV infection.

Less Common Bloodborne Pathogens

Students may be exposed to bloodborne pathogens that cause the following conditions during the course of their training: Syphilis, Malaria, Babesiosis, Brucellosis, Leptospirosis, Arboviral infections (including Colorado Tick Fever), Relapsing Fever, Creutzfeldt-Jakob Disease, Human T-lymphotropic Virus Type I, and Viral Hemorrhagic Fever.

Latex Allergy

Latex refers to the natural rubber latex manufactured from a milky fluid that is primarily obtained from the rubber tree. The U.S. Food and Drug Administration (FDA) requires labeling of medical devices that contain natural rubber latex. Some synthetic materials referred to as “latex” do not contain the natural rubber proteins responsible for latex allergy symptoms. Healthcare workers are at risk of developing latex allergy because of the frequent use of latex gloves. Latex proteins also become fastened to the lubricant powder used in some gloves; therefore, when healthcare workers change gloves, the protein/powder particles become airborne and can be inhaled.

The most common reaction to latex products is irritant contact dermatitis. Other symptoms of latex allergy include itchy eyes, rhinorrhea, sore throat, respiratory symptoms, and rarely, shock. The prevalence of latex allergy in healthcare workers is 8-12% (compared to 1-6% of the general population).

Appropriate barrier protection is necessary when exposure to bloodborne pathogens or other infectious agents is anticipated. The use of powder-free gloves with reduced protein content will reduce exposure, and subsequent sensitization, to latex. After removing latex gloves, wash hands with mild soap and dry thoroughly. “Hypoallergenic” latex gloves do not reduce the risk of latex allergy but they may reduce reactions to the chemical additives in the latex. Any LMU-DCOM PA Program student, faculty, or staff member with a suspected allergic reaction to latex is required to seek medical attention immediately to prevent delays in treatment.

STUDENT ACCIDENT CLAIM FORM

STUDENT'S FULL NAME (PRINT) LAST _____ FIRST _____ M.I. _____

STUDENT'S SCHOOL ADDRESS _____

STUDENT'S HOME ADDRESS _____

S.S.# _____ DATE OF BIRTH _____ SEX _____ GRADE _____

DATE OF ACCIDENT _____ HOUR _____ A.M. P.M.

DETAILED DESCRIPTION OF ACCIDENT: HOW DID IT OCCUR? (OR ATTACH ACCIDENT REPORT COMPLETED BY THE SCHOOL REPRESENTATIVE WHO WITNESSED THE ACCIDENT) _____

WHERE DID IT OCCUR? _____

PART OF BODY INJURED _____ RIGHT LEFT

ACTIVITY SPORT _____ INTERCOLLEGIATE INTRAMURAL

STUDENT ACCIDENT (describe) _____

HAS A CLAIM EVER BEEN FILED ON THIS STUDENT? YES NO

NAME OF SCHOOL AUTHORITY SUPERVISING ACTIVITY _____

WAS SUPERVISOR A WITNESS TO THE ACCIDENT? YES NO

IF NOT, WHEN WAS THE ACCIDENT FIRST REPORTED TO A SCHOOL AUTHORITY? DATE _____

SIGNATURE OF SCHOOL OFFICIAL _____ TITLE _____

DATE OF THIS REPORT _____

IMPORTANT: PLEASE ATTACH ITEMIZED BILLS

THIS FORM MUST BE COMPLETED AND RETURNED TO THE COMPANY WITHIN 90 DAYS FROM THE DATE OF TREATMENT ACCOMPANIED BY ALL MEDICAL BILLS INCURRED TO DATE.

HOW TO FILE YOUR ACCIDENT CLAIM FORM

1. Complete **ALL** blanks.
2. Please read and sign authorization on back of this form.
3. Attach all **ITEMIZED** bills (itemized bills include the date of service, procedure code, diagnosis code, etc. not balance due statements) for **MEDICAL EXPENSES ONLY**. Include all worksheets, denials, and/or statements of benefits from your primary insurer. (Each charge **must** be processed by all other insurances/plans before they can be processed by First Agency, Inc.)
4. Mail within 90 days of the accident to:

First Agency, Inc.
5071 West H Avenue
Kalamazoo, MI 49009-8501

First Agency, Inc.

AUTHORIZATION - To Permit Use and Disclosure of Health Information

This Authorization was prepared by First Agency, Inc. for purposes of obtaining information necessary to process a claim for benefits.

Upon presentation of the original or a photocopy of this signed Authorization, I authorize, without restriction (except psychotherapy notes), any licensed physician, medical professional, hospital or other medical-care institution, insurance support organization, pharmacy, governmental agency, insurance company, group policyholder, employer or benefit plan administrator to provide First Agency, Inc. or an agent, attorney, consumer reporting agency or independent administrator, acting on its behalf, all information concerning advice, care or treatment provided the patient, employee or deceased named below, including all information relating to, mental illness, use of drugs or use of alcohol. This Authorization also includes information provided to our health division for underwriting or claim servicing and information provided to any affiliated insurance company on previous applications. If this Authorization is for someone other than myself, that individual has given me the authority to act on his/her behalf as explained below.

I understand that I have the right to revoke this Authorization, in writing, at any time by sending written notification to my agent or to us at the above address. I understand that a revocation will not be effective to the extent we have relied on the use or disclosure of the protected health information or if my Authorization was obtained as a condition to determine my eligibility for benefits. Revocation requests must be sent in writing to the attention of the Claims Supervisor.

I understand that First Agency, Inc. may condition payment of a claim upon my signing this authorization, if the disclosure of information is necessary to determine the level or validity of the claim payment. I also understand, once information is disclosed to us pursuant to this Authorization, the information will remain protected by First Agency, Inc. in accordance with federal or state law.

I understand that I or my authorized representative is entitled to receive a copy of this authorization upon request.

This Authorization is valid from the date signed for the duration of the claim.

INCIDENT REPORT**

Full Name: _____

Street Address: _____

City/ST/Zip: _____

Birthdate: _____

Hire Date: _____ Position Title: _____

Male/Female (circle one)

Date/Time of Accident: _____ AM/PM

Date/Time Reported: _____ AM/PM

Time Employee Began Work: _____ AM/PM

Names of Witnesses:

_____ Interviewed: YES NO (attach documentation)

_____ Interviewed: YES NO (attach documentation)

Treatment away from worksite?

Emergency Room: Yes / No

Physician or Other: _____

Facility: _____

Address: _____

Was injured person hospitalized overnight as inpatient? Yes / No

If injured person died, when did death occur? Date: _____

Name of building or area the injured person was in: _____

What was the injured person doing just before the incident occurred? Describe the activity, as well as the tools, equipment or material the injured person was using. Be specific. Examples: climbing a ladder while carrying roofing materials, spraying chlorine from hand sprayer, daily computer tasks. _____

What happened? Tell us how the injury occurred. Examples: When ladder slipped on wet floor, injured person fell 20 feet; injured person was sprayed with chlorine when gasket broke during replacement; injured person developed soreness in wrist over time. _____

What was the injury or illness? Tell us the part of the body that was affected and how it was affected. Example: Lower back pain; complains of wrist pain. _____

What object or substance directly harmed the injured person? Examples: Concrete floor, chlorine, radial arm saw. If this question does not apply to the incident, leave it blank. _____

Cause: Reason(s) for accident. Contributing factors, unsafe acts, unsafe conditions? _____

Prevention: Describe how to prevent a similar accident. _____

What action do you need to take? _____

Signature of Supervisor: _____ **Date:** _____

(If applicable)

Signature of Injured Person: _____ **Date:** _____

(If injured person refuses to sign, please note here)

Has corrective action been taken to prevent a similar accident? YES NO

By whom and what action was taken? _____

Consent to Release Educational Records (FERPA)

Notice: This information is being provided to you to clarify questions regarding your rights under the Federal Educational Rights and Privacy Act (FERPA). For the purposes of FERPA and this form, "educational records" include academic progress reports, other academic information (such as academic probation), disciplinary records (such as behavioral problems), financial aid, billing and account information, and physical and mental health concerns. If you are claimed as a dependent on your parents' Federal Income Tax return, your parents are entitled to the above information. If you are not a dependent of your parents, providing them this information is your choice. The purpose of this form is to provide your educational records as much protection as possible. This consent shall remain in effect during continuous enrollment at LMU. The student may revoke this consent at any time during enrollment by submitting a written request to the Dean of Students.

Student Information:

I _____ hereby request/authorize personnel at
(Print – Student Legal Name) Student ID # (or last 4 digits of SSN)
Lincoln Memorial University to disclose information regarding my educational records and all other records maintained by the institution except (if there are no exceptions, please leave blank):

Person(s) to whom disclosures may be made:

Name, address, and phone number of person:	Name, address, and phone number of person:
