

MaryAnn Thrush, PhD

Associate Professor of Criminology and Criminal Justice
Chair, Department of Social Sciences

Biography

Dr. Thrush received her BA in Foreign Languages at Purdue University while working fulltime as a research associate for the Biology Department. She received her MSW in Clinical Social Work from the University of Oklahoma and PhD in Criminal Justice and Criminology from the University of Florida. While these are diverse fields of study, they have all been useful in her criminal justice/criminology interests. The research at Purdue provided a foundation for BioSocial Criminology studies, (a current advancement in theoretical research into the reasons people commit crime). Scholars are finding that there are genes that code for behavior shaped by different environments. Dr. Thrush's second interest while studying for her PhD was BioSocial Criminology. As a clinical social worker in private practice, she was well prepared to work in the California prison system. She supervised social workers who went into the state prisons to interview mentally ill inmates. This very successful program served as a bridge between prison and parole. Dr. Thrush has two sons, one who lives on a boat near Key West Florida and the other lives in Cincinnati, Ohio with his wife. Currently, Dr. Thrush lives with her dog, Joey (a hairless Chinese Crested).

Teaching and Research Interests

Dr. Thrush's research interests include Restorative Justice, and the role of emotions in Criminal Justice and Criminology.

Publications and Presentations (last five years)

Publications

Thrush, M. (2023). *International Journal of Social Work Values and Ethics*: Murray, Sarah, (2022). *Community Justice Centres: New Trajectories in Law*. Abingdon, Oxon: Routledge. (submitted)
