

Using Turnitin with Via

Submitting Documents and Viewing the Similarity Report

Submitting to and assessing a Turnitin Similarity enabled activity is no different than any other activity in Via. However, when a student uploads a document to a Turnitin-enabled activity, the file will immediately be sent to and checked by Turnitin Similarity. Once the check is complete, the report can be viewed.

NOTE: The first time a student or assessor accesses an activity created with a Turnitin-enabled template, they will be prompted to accept the Turnitin End-User License Agreement. Once accepted, they will not be prompted again (unless Turnitin updates the agreement terms).

NOTE: Files uploaded for Turnitin submission have both a size and file type requirement:

1. Files size must be 100 MB or less.
2. Files must be one of the following file types: .pdf, .doc, .ppt, .pps, .docx, .pptx, .ppsx, .xlsx, .xls, .ps, .rtf, .htm, .html, .wpd, .odt, .txt.

To view the Turnitin Score and Report:

1. Once a file is uploaded, the file will be sent to Turnitin and the check will begin.
2. Click the Refresh Status button to see if the check is complete.

Similarity: Checking...

[Refresh Status](#)

Assessment Panel

Comments List

After uploading a file, it will be sent to Turnitin and the check will begin.

You can see if the check is complete by clicking the Refresh Status link.

NOTE: The check process may take several minutes depending on file size, internet bandwidth, etc. However, the activity can be submitted without waiting for the Turnitin check to complete. The check will continue in the background.

- Once the check is complete, the Similarity score will be shown along with a link to view the report.

11 Immo alio genere. Equidem, sed audistine modo de Carneade? Nam, ut sint illa vendibiliora, haec uberiora certe sunt. Quod ea non occurrentia fingunt, vincunt Aristonem; Non risu potius quam oratione eiciendum? Sed virtutem ipsam inchoavit, nihil amplius. Si de re disceptari oportet, nulla mihi tecum, Cato, potest esse dissensio.
